**Rating Rationale**

- Kuveyt Turk Katilim Bankasi A.S.' (Kuveyt Turk) IDRs, Support and National Long-Term Ratings reflect the support it can expect to receive from its majority shareholder, Kuwait Finance House (KFH, 'A+'/'Stable'/'F1'; Individual 'C/D'/'Rating Watch Negative'), in case of need. The Individual Rating is indicative of Kuveyt Turk's exposure to rising credit risks, and its limited – albeit improving – franchise. These are offset by high profitability, adequate capitalisation and stable funding.
- Operating profitability has held up well in H109 under a contracting economy. However, sustaining these levels may be challenging in an environment under compressed margins with limited growth.
- The bank aims to increase its retail lending and to decrease size concentration in its overall loan portfolio, along with diversifying sector composition. The weakening credit environment which began in H208 – together with the levels of concentration in the loan portfolio – led to deterioration in asset quality over the 12 months to end-H109, while reserve coverage of impaired loans remains weak.
- Kuveyt Turk's liquidity relies on its diversified and (to date) stable deposit base. Capitalisation has been supported by two cash capital injections since 2007, and retained earnings, keeping the Tier 1 and total capital adequacy ratios (CARs) consistently at around 15%.

**Support**

- Fitch Ratings believes that the probability of support that would be available to the bank is high, reflected in the Support Rating of '2'.

**Key Rating Drivers**

- The Long-Term Local Currency IDR is one notch above that of the Turkish sovereign, while the Long-Term foreign Currency IDR is at the Country Ceiling. The bank's IDRs are driven by the developments regarding the intrinsic strength of KFH.
- Upside to the Individual Rating is limited, whereas downside would arise from major asset quality deterioration coupled with markedly weakened profitability and capitalisation.

**Profile**

Kuveyt Turk was incorporated in 1989, and is 62%-owned by KFH. It engages in interest-free banking (primarily involving corporate and commercial lending), while also targeting retail customers. Kuveyt Turk ranks third of Turkey's four participation banks in terms of funds collected, with a 22% market share within that segment at end-2008. The bank was the 19th-largest by unconsolidated assets among the 49 banks in Turkey as of end-H109, with a 0.81% market share.
