KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ

INDEPENDENT AUDITOR’S LIMITED REVIEW REPORT FOR THE PERIOD JANUARY 1 – MARCH 31, 2012

We have reviewed the accompanying balance sheet of Kuveyt Türk Katılım Bankası A.Ş. (The “Bank”) as of March 31, 2012, and the related statements of income, cash flows and changes in equity for the period then ended. These financial statements are the responsibility of the Bank’s management. As independent auditors our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information, it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements are not presented fairly, in all material respects, the financial position, the results of its operations and its cash flows, of Kuveyt Türk A.Ş. for the period ended March 31, 2012 in accordance with the prevailing accounting principles and standards set out as per the Article No: 37 of the Banking Act No: 5411, and other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by the Banking Regulation and Supervision Agency (“BRSA”).

Other matters

The limited review and review of the Bank’s financial statements for the three months period ended as of March 31, 2011 and for the year ended December 31, 2011 were audited by another independent audit firm. For the financial statements prepared as of 31 March 2011, in its review report prepared at 13 May 2011, the previous independent audit firm stated that nothing had come to their attention that caused them to believe that the financial statements were not presented fairly the financial position and the results of the Bank’s operations as of 31 March 2011 and had given an unqualified opinion for the 31 December 2011 financial statements in its independent auditor’s report dated 22 March 2011.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Banks's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

V. Explanations of the Bank's services and field of operations:

The Bank's field of operations includes corporate banking, international banking services, and retail banking and credit card services. The Bank's core business is operating in accordance with the principles of interest-free banking as a participation bank by collecting funds through current and profit/loss sharing accounts, and lending such funds to its customers. As of March 31, 2012, the Bank is operating through 183 domestic branches (December 31, 2011 – 180) with 3,495 employees (December 31, 2011 – 3,326). Summary of some of the Bank's operations described in the Articles of Association are as follows:

- To collect funds through "Current Accounts" and "Profit/Loss Sharing Accounts" and special fund pools in line with the regulations;
- To allocate funds to the economy and provide all kinds of cash, non-cash loans within the principles of non-interest banking;
- To offer financial and operational leasing;
- To handle all kinds of deposits and payments, including travelers' checks, credit cards and other payment instruments, provide member business services (POS), consulting, advisory, and safe deposit box services;
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking;
- To purchase, acquire and construct any kind of real estate and if necessary lease or transfer ownership to other persons;
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies);
- To provide socially responsible aid for the benefit of the community in the light of the legislations.

The Bank's activities are not limited to the list above. If another transaction is decided to be beneficial to the Bank, the transaction must be recommended by the Board of Directors, approved by the General Committee and authorized by relevant legal authorities after which it also needs to be approved by the Ministry of Customs and Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels are included to the Article of Association.

SECTION THREE

ACCOUNTING PRINCIPLES

I. Explanations on basis of presentation

a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on Accounting Applications for Banks and Safeguarding of Documents’:

The unconsolidated financial statements have been prepared in accordance with the ‘Regulation on Accounting Applications for Banks and Safeguarding of Documents’ numbered 5411 published in the Official Gazette No.26333 dated November 1, 2006, which refers to ‘Turkish Accounting Standards’ (TAS) and ‘Turkish Financial Reporting Standards’ (TFRS) issued by the ‘Turkish Accounting Standards Board’ (TASB) and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all ‘Turkish Accounting Standards’ or ‘TAS’) published by the Banking Regulation and Supervision Agency. The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to Those Financial Statements”, published in Official Gazette No. 26430, dated February 10, 2007, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish tax legislation.

In accordance with the Article 37 of the Banking Act 5411, the Banks must apply the uniform chart of accounts in their accounting systems in accordance with the procedures and principles identified by the Banking Regulation and Supervision Agency (“BRSA”) by taking into account the international standards and opinions of the TASB and other associations of the banking sector into consideration; record all transactions in accordance with their underlying nature; prepare clear, reliable, comparable, suitable for audit, analysis and interpretation, timely and accurate financial reports in a form and content that meets the information requirements of users.

b. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements:

Accounting policies and valuation methods used in the preparation of financial statements have been applied as specified in the related communiqués, pronouncements and regulations of TAS and BRSA. The accounting policies adopted in the preparation of the year-end financial statements are consistent with those adopted in the preparation of the financial statements as of December 31, 2011.

“Communiqué related to Changes in Communiqué on Financial Statements and Related Disclosures and Footnotes to be announced to Public by Banks” published in the Official Gazette dated January 23, 2011 and numbered 27824 has set out the financial statement formats for the banks which selected to early adopt TFRS 9 “Financial Instruments” before January 1, 2013. This standard will primarily have an effect on the classification and measurement of the Bank’s financial assets. The Bank has not early adopted this standard and is currently assessing the impact of adopting it. However, as the impact of adoption depends on the financial asset management models applied and the financial assets held by the Bank at the date of adoption, it is not practical or possible to quantify the effect at this stage. As of the date of these financial statements, the other TAS/TFRS standards announced but not yet effective are not expected to have significant impact on the Bank’s accounting policies, financial position and performance.

The financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities held for trading carried at fair value.

I. Explanations on basis of presentation (continued)

b. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements (continued)

The preparation of unconsolidated financial statements in conformity with TAS requires the Bank management to make assumptions and estimates with respect to assets and liabilities on the balance sheet and contingent issues outstanding as of the balance sheet date. These assumptions and estimates are mainly related with the determination of the fair values of the financial instruments and determination of the impairments on assets and these assumptions are being reviewed regularly and, when necessary, appropriate corrections are made and the effects of these corrections are reflected to the income statement.

c. Preparation of the financial statements in the current purchasing power of money:

Until December 31, 2004, the financial statements of the Bank were subject to inflation adjustments in accordance with Turkish Accounting Standard No: 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”). BRSA explained with its decision numbered 1623 and dated April 21, 2005 and its circular dated April 28, 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied beginning from January 1, 2005.

II. Explanations on strategy of using financial instruments and foreign currency transactions

The Bank follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank’s exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank’s equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira. Valuation differences of foreign currencies have been recognized in the income statement under the ‘Net foreign exchange income/expense’ account.

The Bank’s portion of risk regarding loans originating from participation accounts followed in receivables to be written off, doubtful commission, fees and other receivables, uncollectible loans and other receivables, along with foreign currency (FC) loans and receivables originating from the Bank’s equity and private current accounts are converted to Turkish Lira with the rates prevailing at the date of the transfer of such receivables to non-performing loan portfolio. The participation accounts’ portion of the risk of the foreign currency loans and FC pegged loans, originating from participation accounts, is evaluated with the current foreign currency rates and the differences are recorded foreign currency gains/losses account in the income statement.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement. There are no foreign currency differences capitalized by the Bank.

III. Explanations on forward transactions and option contracts and derivative instruments:

The Bank enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. The Bank classifies its derivative instruments as “Held for Hedging” and “Held for Trading” in accordance with TAS 39. Even though some derivative transactions economically hedge risk, since all necessary conditions for hedge accounting are not met, they are accounted for as “held for trading” within the framework of TAS 39, and are reflected in the “Derivative Financial Assets/Liabilities Held for Trading” account in the balance sheet.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2012

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

III. Explanations on forward transactions and option contracts and derivative instruments (continued)

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their notional amounts.

Fair values of foreign currency forward transactions and swaps are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under 'Trading Income/Loss' line in the income statement.

Embedded derivatives are separated from the host contract if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative and the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss. Embedded derivatives are accounted as derivative instruments in-line with TAS 39. If the embedded derivatives are closely related with the host contract, embedded derivatives are accounted for in-line with the relevant standard applicable for the host contract.

IV. Explanations on profit share income and expense

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. In accordance with the related regulation, the profit share accruals of non-performing loans are cancelled and are not recorded until the profit share income is realized.

The Bank calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in "Funds Collected" account on the balance sheet.

V. Explanations on fees and commission income and expenses

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income when collected, fees and commission income/expenses are reflected in the income statement over the period of the related transaction.

In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the Deferred Revenues account under Other Liabilities on the balance sheet.

VI. Explanations on financial assets

The Bank classifies and accounts for its financial assets as 'Fair value through profit/loss', 'Available for sale', 'Loans and receivables' or 'Held to maturity'. Sale and purchase transactions of the financial assets mentioned above are recognized at the 'Settlement dates'. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

a. Financial assets at fair value through profit or loss:

This category has two sub categories: "Trading financial assets" and "Financial assets designated at fair value through profit/loss at initial recognition".

Trading financial assets are financial assets which are either acquired for generating a profit from short-term fluctuations in prices or dealers' margin, or are financial assets included in a portfolio and derivative instruments in which a pattern of short-term profit making exists.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2012

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VI. Explanations on financial assets (continued)

a. Financial assets at fair value through profit or loss (continued)

Trading financial assets are initially recognized at transaction prices, which are assumed to be the fair value, and subsequently measured at fair value. All gains and losses arising from these valuations are reflected in the income statement.

Other than trading financial assets, the Bank has no financial assets at fair value through profit or loss.

b. Financial assets available for sale:

Financial assets available for sale are initially recognized at cost; which reflects their fair values; including the transaction costs. Financial assets classified as available for sale financial assets which do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less impairment, if any.

c. Loans and receivables:

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not listed in an active market and are not classified as held for trading, financial assets at the fair value through profit or loss or as available for sale. Loans and receivables are initially recognized at cost, which is assumed to reflect their fair value and subsequently recognized at the amortized cost calculated using the internal rate of return method. The expenses incurred for the loans and receivables received as collateral are not considered as transaction costs and are recognized in the expense accounts.

d. Held to maturity financial assets:

Held to maturity financial assets are financial assets with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity that are not classified under 'Loans and receivables'. Held to maturity financial assets are initially recognized at cost which is assumed to reflect their fair value, and subsequently carried at 'Amortized Cost' using the 'Internal Rate of Return'. Profit share income from held to maturity financial assets is reflected in the income statement. The Bank does not have any held to maturity financial assets as of the balance sheet date.

VII. Explanations on impairment of financial assets:

At each balance sheet date an assessment is made as to whether there is objective evidence that a financial asset or group of financial assets is impaired. If such evidence exists, impairment is provided for financial asset categories as explained below.

i) Loans and receivables:

If there is objective evidence that the loans might not be collected, the Bank reclassifies such loans to III., IV. and V. groups and provides impairment reserve in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on November 1, 2006 in the official Gazette numbered 26333 and "Communiqué for the amendment of the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on January 23, 2009 in the official Gazette numbered 27119. For the loans with poor financial position and/or payment capability, the Bank can provide a specific impairment reserve in excess of the amounts calculated using the minimum required rates for the related group.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2012

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on impairment of financial assets (continued)

Collections related to the provisions provided in the current period for such loans are deducted from ‘Provisions for Loan losses and Other Receivables’ account in the income statement. Subsequent recoveries of amounts previously written off or provisions made in prior periods are included in “other income” in the income statement.

In the case where there is evidence for the possibility of uncollectibility of loans, the Bank classifies related loans and receivables in non-performing loans and provides specific and general provision, in accordance with the Communiqué dated November 1, 2006, published on the Official Gazette No: 26333 and revised with the Communiqué dated March 6, 2010, published on the Official Gazette No: 27513 and the Communiqué dated January 23, 2009, published on the Official Gazette No: 2719 “Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves”. In addition, in the current period, the Bank aligned general provision calculation with the regulation within the context of regulations published in the Official Gazette No: 27968 dated June 18, 2011, Official Gazette No: 27947 dated May, 28 2011 and Official Gazette No: 28158 dated December 30, 2011.

ii) Financial assets held to maturity:

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is measured as the difference between the present value of future estimated cash flows discounted using the original profit share and the carrying value; provision is made for impairment and the provision is associated with expense accounts.

iii) Financial assets available for sale:

If there is objective evidence indicating that the fair value of an available for sale financial asset, for which decreases in the fair value has been accounted under the equity, has been impaired then the total loss which was accounted directly in the equity is transferred from equity to the income statement.

Impairment losses recognized in the income statement related to the investments in equity instruments classified as available for sale financial assets cannot be reversed through the income statement. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on equity instruments cannot be reversed.

VIII. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

IX. Explanations on sale and repurchase agreements and lending of securities

The Bank has no sale and repurchase agreements transactions and lending securities transactions.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2012

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

X. Explanations on assets held for sale and discontinued operations and related liabilities

As mandated by the Banking Act 5411 Article 57 “banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements within the scope of Capital Markets Act No. 2499, and precious metal trade as seen appropriate by the board, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were acquired due to receivables and debtors’ obligations to the bank are determined by the board.”

The principles for valuation and accounting for disposal of assets acquired by banks in return for their nonperforming loans are determined by the official communication of “Principles and Procedures on Bank’s Disposal of Precious Metals and Assets Held for Sale” No. 26333 published on November 1, 2006 in the Official Gazette.

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or disposal group) can remain to be classified as assets (or disposal group) held for sale. Extension of the period necessary to complete the sale, does not avoid the classification of the related asset (or disposal group) to be classified as asset held for sale.

Although the Bank has assets acquired due to receivables and debtors’ obligations to the Bank, such assets are classified as fixed assets rather than assets held for sale and are amortized due to inability to dispose them or to produce a solid plan for disposal within a year within the provisions of banking legislation.

On the other hand properties acquired by the Bank due to receivables and debtors’ obligations to the Bank are reflected as assets held for sale in the financial statements provided that there is a contracted term sale agreement.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale. Discontinued operations are presented separately in the income statement. The Bank has no discontinued operations.

XI. Explanations on goodwill and other intangible assets

Intangible assets are stated at cost adjusted for inflation until December 31, 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Bank comprise mainly computer software. The useful lives of such assets acquired prior to 2004 have been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

There is no goodwill related to associates and subsidiaries.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED MARCH 31, 2012

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XII. Explanations on tangible assets

Fixed assets are stated at cost adjusted for inflation until December 31, 2004, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, Leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

XIII. Explanations on leasing transactions

Bank as a lessee

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset is identified, a provision for impairment is recognized.

Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term.

Bank as a lessor

The Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

XIV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted for in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The Bank recognizes provisions for obligations which arose from prior periods in current financial year, only if, the possibility of realization is high and a reliable estimation can be made. A provision is provided if liabilities have been originated as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

XV. Explanations on liabilities relating to employee benefits

a) Defined benefit plans:

In accordance with existing social legislation, the Bank is required to make severance pay to each employee who has completed over one year of service with the Bank and who retires or quits the employment to receive old age or disability benefits, to fulfill the compulsory military service, because of the marriage (for females) or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

The retirement pay provision recognized in the accompanying financial statements, is calculated based on” Turkish Accounting Standard on Employee Benefits (TAS 19)”, by using the “projection method” and based on upon factors derived using the past experience of the Bank with respect to completion of service period and eligibility to receive retirement pay and discounted by using the current long term market yield rate of government bonds at the balance sheet date.

The Bank’s employees are not members of any pension fund, foundations, union or other similar entities.

b) Defined contribution plans:

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

c) Short term benefits to employees:

In accordance with “TAS 19”, vacation pay liabilities are defined as “Short Term Benefits to Employees” and accrued as earned and not discounted.

Bank management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

XVI. Explanations on taxation

Current tax

The corporate tax rate in Turkey is 20%. This rate is applied on taxable income which is calculated by adjusting the income before tax for certain disallowable expenses, tax exempt income and other allowances. No further tax is applicable unless the profit is distributed. According to the tax code, each quarter advance tax amount is calculated using a rate of 20% over tax base and paid, then the paid advance taxes are deducted from the corporate tax liability that is calculated for the year.

Withholding taxes is not applied to dividends distributed to companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey. With the Council of Minister's decision numbered 2009/14593 and 2009/14594 which are published in official gazette numbered 27130 and dated February 3, 2009, some deduction rates in 15th and 30th articles of the corporate tax law numbered 5520 were re-determined. In accordance with this, dividends distributed to companies other than companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey are subject to 15% withholding taxes. Double tax treaty agreements are also taken into consideration during the application of withholding taxes on dividends distributed to real persons and to foreign based taxpayers. Addition of profit to share capital is not considered as dividend distributed therefore no withholding taxes is applied.

Corporate tax returns are filed by the twenty fifth day of the fourth month following the balance sheet date and taxes is paid in one installment by the end of that month.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. However, losses cannot be carried back to offset profits from previous periods. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments. Companies file their tax returns to their tax offices until the end of 25th of the fourth month following the accounting period. The tax authorities have the right to inspect the tax returns and their underlying accounting records in a five years period and can revise the amount of taxes if any errors have been notified during the inspection.

Deferred tax

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12"). Deferred tax asset is calculated on all temporary differences other than general provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis.

XVII. Explanations on additional disclosures on borrowings

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Bank does not apply hedging techniques on related borrowings.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

Borrowing through the rent certificates (Sukuk)

In order to collect funds from various investors, the Bank issued a 5 year term rent certificate amounting to USD 350 million on October 31, 2011 with a profit share rate of 5.875%. The Bank has performed this issue through KT Sukuk Varlık Kiralama A.Ş. (Note V Part I-h), which is a subsidiary of the Bank that is established specifically for this transaction (the issuance of the rent certificates). Funds collected by KT Sukuk Varlık Kiralama A.Ş. from rent certificate investors, amounting USD 350 million, is transferred to the Bank in exchange of some of the real estate assets, loan receivables and leasing receivables of the Bank. Within the scope of the aforementioned transaction, the Bank has sold its real estate properties with a net book value of TL 61,195 to KT Sukuk Varlık Kiralama A.Ş. for a consideration equal to their market price of TL 248,734 (USD 136,870 thousand) and leased back these real estate assets for 5 years with a repurchase option at the end of the fifth year.

In accordance with BDDK's letter numbered B.02.1.BDK.0.06.00.00-045.01(3/8)-5397 and dated March13, 2012 this transaction is accounted for as "sale and lease back" transaction in accordance with TAS 17. As a consequence of this accounting treatment, the net book value of the real estate property transferred and leased back increased from TL 61,195 to TL 248,734. The difference of TL 187,539 between the net book value of TL 61,195 before the aforementioned transaction and the net book value of TL 248,734 after the aforementioned transaction will be recognized as income in 5 years using the effective interest method and accounted for as deferred income under other liabilities. As of March 31, 2012, TL 4,661 of the aforementioned deferred income is recognized as income in the income statement.

As a result of the lease back of the real estate property, the total amount of semi-annual rental payments to be made to KT Sukuk Varlık Kiralama A.Ş. in 5 years and total amounting to USD 177,076 thousand is discounted with a profit share rate of 5.875% to the date of the transaction as USD 136,870 thousand and accounted for as financial lease payables.

The remaining part of the total funds of USD 350 million transferred by KT Sukuk Varlık Kiralama A.Ş. to the Bank which is not part of the sale and leaseback transaction and amounting to USD 213,130 thousand is accounted for as Funds Borrowed in the balance sheet.

XVIII. Explanations on share certificates issued

The Bank has no material costs for issuance of share certificates.

XIX. Explanations on acceptances and availed drafts

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

XX. Explanations on government grants

There are no government grants received by the Bank.

SECTION FOUR

INFORMATION ON FINANCIAL STRUCTURE

I. Explanations on capital adequacy standard ratio

Capital adequacy ratio is calculated in accordance with the “The Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks” published in the Official Gazette No: 26333, dated November 1, 2006 and “The Regulation on Amendments to the Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks” published in the Official Gazette No: 26669, 26824 27320 and 27968 dated October 10, 2007, March 22, 2008, August 15, 2009, and June 18, 2011 respectively. For the calculation of the capital adequacy ratio, the accounting records prepared in compliance with the current legislation are used. The calculation of Capital Adequacy Ratio includes the methods used in determining the Capital Adequacy Ratio, determination of risk weighted assets and non-cash loans in line with the relevant banking regulation and measuring the market risk and operational risk ratio in line with the same regulation. Moreover, market risk value is calculated in accordance with the “The Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks” and factored into capital adequacy ratio.

Based on the “Measurement and Assessment of Capital Adequacy of Banks”, the capital adequacy ratio of the Bank is 15.34% (December 31, 2011 – 16.02%).

II. Explanations on market risk

The Bank has established market risk operations and has taken the necessary precautions in order to manage market risk within its financial risk management purposes under “Risk Management Systems” in accordance with BRSA Regulation on “Banks’ Internal Systems” published in the Official Gazette No. 26333 dated November 1, 2006.

Organizational and functional internal applications of risk management systems have been determined by the Board of Directors in accordance with the regulation mentioned above. The Bank approved the regulation related to the “Risk Management Systems and Working Procedures and Principles of the Risk Management Presidency”. With this internal regulation and Treasury Directorship’s Marketing and Liquidity Risk Management Policy and Application Procedures which are also approved by the Board of Directors, the procedures with respect to management of market risk are determined. Additionally, the Board of Directors, without transfer of its responsibility, requires the consent of the risk management group and the top management of the Bank to take necessary actions in order to identify, measure, control and manage the risks that the Bank is exposed to.

Additionally, in accordance with the official communication on “Measurement and Assessment of Capital Adequacy of Banks”, published in the same Official Gazette as mentioned above, and in the context of other related regulations, the Bank has started to calculate and report to BRSA the amount subject to market risk with the Standard Method and the amount thus calculated has been considered in the capital adequacy calculation of the Bank.

The capital which should be kept against general market risk and specifics risks, is calculated and monthly reported in accordance with the “Marketing risk measurement process with standard method” which is the third chapter of “Calculation of Marketing Risk Amount” of the “Communiqué on the “Measurement and Assessment of Capital Adequacy of Banks”. As of March 31, 2012, the details of market risk calculated in accordance with the mentioned method are as follows:

III. Explanations on currency risk

Foreign currency risk represents the Bank's exposure to loss due to the changes in foreign currency exchange rates. All foreign currency assets, liabilities and foreign currency forward transactions are considered in calculation of capital to be employed for foreign currency risk according to Standard Method.

The Bank monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions are used when necessary to mitigate the risk.

As of March 31, 2012, the Bank carries a net foreign currency long position of TL 15,332 (December 31, 2011 – TL 234 short position) comprising TL 45,171 long balance sheet position (December 31, 2011 - TL 5,118 long position) and TL 60,503 off balance sheet long position (December 31, 2011 - TL 4,884 long position).

IV. Explanations on liquidity risk

Liquidity risk represents risk of not having sufficient cash or cash inflows to completely meet the cash outflows on time as a result of imbalance in cash flows.

Liquidity risk may also result from inability to penetrate to market or change positions quickly at suitable prices and amounts due to market disruptions or barriers. To mitigate liquidity risk, the Bank diversifies funding sources (customer funds and funds borrowed from abroad) and keeps a certain level of assets as cash and cash equivalents.

The Bank determines the liquidity position daily and the treasury department manages market transactions in accordance with the liquidity position of the Bank. Indicators of liquidity conditions are analyzed at the weekly Asset/Liability meetings with the participation of top management.

VI. Explanations on business segments

The Bank operates in Corporate and Commercial Banking, Retail Banking, International Banking – Treasury and Investment Banking sectors.

Corporate and Commercial Banking: to meet the financial needs of the customers', unique cash flow and financial solutions are provided to customers through loans, non-cash loans, foreign trade financing services and similar customized products. Domestic and foreign business opportunities are supported by using different corporate banking instruments to serve the sustainability of the production of entities.

Retail Banking; there are four main activities: fund collection, consumer financing, credit cards and alternative distribution channels. The Bank serves in the range of products of profit share accounts creation, banking services, Trade Finance, Checks, POS services, Credit Cards, ATM services, Online Banking and Mobile Banking in these fields.

International Banking: In International Banking, the relationships with foreign correspondent banks and investment institutes are executed directly or via branches abroad, representative offices and agencies. The aim of international banking is to enable foreign trade financing and develop mutual long term financing agreements with foreign banks. The Matched Murabaha is offered to SME's and international investors to meet the financing needs of SME's with international funds. Besides supplying syndicated loans for the Bank, investment banking also supplies syndicated loans in corporate basis for the firms and groups in Turkey. The Treasury in addition to monitoring foreign currency position and liquidity of the Bank, also conducts spot and forward transactions in TL or foreign currencies, performs derivative transactions (Forward, SWAP) with banks and customers, trades of gold within the context of membership of Istanbul Gold Exchange, trades share certificates in Istanbul Stock Exchange and international markets and conducts Murabaha transactions with foreign banks.

4. Information on provisions for employee benefits:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 9,940 (December 31, 2011 – TL 9,193), vacation pay liability amounting to TL 5,795 (December 31, 2011 – TL 0), performance premium for 2012 of an amount TL 3,125 (December 31, 2011 – TL 28,356) and retirement bonuses on payment of TL 856 (December 31, 2011 – TL 0).

Under the Turkish Labor Law, the Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The amount payable consists of one month's salary limited to a maximum of TL 2,805 (December 31, 2011 – TL 2,732) for each year of service. The liability is not funded, as there is no funding requirement.

The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:
