TO THE SHAREHOLDERS OF
KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ**

Introduction

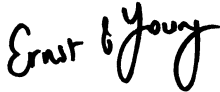

We have reviewed the accompanying interim condensed consolidated financial statements of Kuveyt Turk Katılım Bankası A.Ş. and its subsidiaries ("the Group") as at June 30, 2007 comprising of the interim condensed consolidated balance sheet and the related interim condensed consolidated statements of income, changes in equity and cash flows for the six month period then ended and explanatory notes. Management is responsible for the preparation and presentation of these interim condensed consolidated financial statements in accordance with International Financial Reporting Standards IAS 34 Interim Financial Reporting ("IAS 34"). Our responsibility is to express a conclusion on these interim condensed consolidated financial statements based on our review.

Scope of review

We conducted our review in accordance with the International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34.

10. INCOME TAXES

The Bank and its subsidiaries are subject to taxation in accordance with the tax regulations and the legislation effective in the countries in which the Group companies operate.

In Turkey, the corporation tax rate beginning from for the fiscal years ending December 31, 2006 is 20% (2005 - 30%). Corporate tax returns are required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month. The tax legislation provides for a temporary tax of 20% (2005 - 30%) to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid are offset against the final corporate tax liability for the year.

10. INCOME TAXES (continued)

In addition, the Turkish government offers investment incentives to companies that make certain qualifying capital investments in Turkey. Prior to April 24, 2003, the total amount of qualifying capital investments was deducted from taxable income and the remainder of taxable income, if any, was taxed at the corporate rate. A withholding tax of 19.8% was applied to the total amount of qualifying capital investments. With effect from April 24, 2003, the investment incentives scheme was amended such that companies are no longer subject to a withholding tax, but rather directly deduct 40% of qualifying capital investments from their annual taxable income. In addition, corporations that had unused qualifying capital investment amounts from periods prior to April 24, 2003 were entitled to carry forward these and apply the 19.8% withholding tax to these amounts in the manner described above. With the new law enacted, effective from January 1, 2006, Turkish government ceased to offer investment incentives for capital investments. Companies having unused qualifying capital investment amounts from periods prior to December 31, 2005 will be able to deduct such amounts from corporate income until the end of December 31, 2008; however, the corporate tax rate will be 30% for them. Furthermore, qualifying capital investments to be made until the end of December 31, 2008 within the scope of the investment projects started before December 31, 2005 will be subject to investment incentive until the end of December 31, 2008. In 2006 and 2007, the Bank utilized its investment incentive allowance, whereas for 2008 the Bank has decided not to utilize its investment incentive allowances, therefore in 2008 the corporate tax rate for the Bank will be 20%.

In Turkey, the tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provision for taxes, as reflected in the consolidated financial statements, has been calculated on a separate-entity basis.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.
