(Convenience translation of the independent auditor's limited review report and financial statements originally issued in Turkish - see section three Note XXIII)

**Kuveyt Türk Katılım Bankası Anonim Şirketi**  
**Independent auditors' limited review report**  
**for the interim period ended September 30, 2009**

To the Board of Directors of Kuveyt Türk Katılım Bankası A.Ş.:

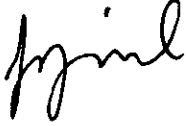

We have reviewed the unconsolidated balance sheet of Kuveyt Türk Katılım Bankası A.Ş. (the Bank) as of September 30, 2009 and the related unconsolidated statements of income, cash flows and changes in shareholders' equity for the period then ended. These unconsolidated financial statements are the responsibility of the Bank's management. As independent auditors, our responsibility is to issue a report based on the review performed on these financial statements.

We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Law No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. A review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information; it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed an audit and accordingly we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying financial statements do not give a true and fair view of the financial position of Kuveyt Türk Katılım Bankası A.Ş. as of September 30, 2009 and the results of its operations and its cash flows for the period then ended in accordance with the prevailing accounting principles and standards set out by regulations in conformity with Article No: 37 of the Banking Law No: 5411, and other regulations, communiqués, interpretations and circulars published by Banking Regulation and Supervision Agency on Accounting and Financial Reporting Principles.

As explained in detail in Note XXIII of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Law No. 5411, the accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

## Kuveyt Türk Katılım Bankası Anonim Şirketi

### Notes related to unconsolidated financial statements for the interim period ended September 30, 2009 (Currency - Thousand Turkish Lira)

#### Section one General information

##### I. History of the Bank including its incorporation date, initial legal status and amendments to legal status:

Kuveyt Türk Katılım Bankası A.Ş. ("the Bank") was incorporated with the permission from the Central Bank of Turkey (CBT) on February 28, 1989 and commenced its operations on March 31, 1989, with the name of Kuveyt Türk Evkaf Finans Kurumu A.Ş. To comply with the Banking Act 5411, the title of the Bank has been changed to Kuveyt Türk Katılım Bankası A.Ş. with a change in the Articles of Association which was approved in the annual general meeting dated April 26, 2006. Main field of operation is, in addition to the Bank's equity, to collect funds from domestic and foreign customers through "Current Accounts" and "Profit Loss Sharing Accounts" and allocate funds to the economy, to perform all kinds of financing activities in accordance with the regulations, to encourage the investments of all individuals and legal entities operating in agricultural, industrial, trading and service industries, participating into the operations of these entities or individuals and to form joint business partnerships and to perform all these activities in a non-interest environment.

##### II. Shareholding Structure, Shareholders Having Direct or Indirect, Joint or Individual Control over the Management of the Bank and the Disclosures on Any Related Changes in the Current Year, if any:

As of September 30, 2009 and December 31, 2008, 62.23% of the Bank's shares are owned by Kuwait Finance House located in Kuwait, 18.72% by Vakıflar Genel Müdürlüğü Mazbut Vakıfları, 9.00% by The Public Institution For Social Security in Kuwait and 9.00% by Islamic Development Bank whereas the remaining 1.05% of the shares are owned by other real persons and legal entities.

##### III. The Chairman & Members of Board of Directors, Audit Committee, General Managers and Assistant General Managers and their Shares in the Bank:

Name	Title	Date of the assignment	Educational degree	Ownership percentage %
Mohammad S.A.I. ALOMAR	Chairman of the Board of Directors and Member of Audit Committee	19/07/2000	Bachelor	-
Abdullah TIVNİKLİ	Vice Chairman of the BOD	16/05/2001	Master	%0.0836
Azfar Hussain QARNI	Member of BOD and Audit Committee	23/05/2003	Master	-
Dr. Adnan ERTEM	Member of BOD	18/10/2002	Doctorate	-

Güven OBALI	Auditor	11/12/2007	Bachelor	-
Ayhan BAYRAM	Auditor	11/02/2007	Bachelor	-

Chairman and members of the Board of Directors, members of auditing committee, general manager and assistant general managers own 0.18% of the Bank's share capital (December 31, 2008 – 0.18%).

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**IV. Information on qualified shareholders:**

Name / Commercial Name	Share amount (Nominal)	Share ratio	Paid shares (Nominal)	Unpaid shares
Kuwait Finance House	311,173	62.23%	311,173	-
Vakıflar Genel Müdürlüğü Mazbut Vakıfları	93,596	18.72%	93,596	-
<b>Total</b>	<b>404,769</b>	<b>80.95%</b>	<b>404,769</b>	<b>-</b>

**V. Explanations of the Bank's service types and field of operations:**

The Bank's field of operations includes corporate banking, international banking services, and retail banking and credit card services. The Bank's core business is operating in accordance with the principles of interest-free banking as a participation bank by collecting funds through current and profit/loss sharing accounts, and lending such funds to its customers. As of September 30, 2009, the Bank is operating with 2,376 employees (December 31, 2008 - 2,246). Summary of some of the Bank's operations described in the Article of Association are as follows:

- To collect funds through "Current Accounts" and "Profit/Loss Sharing Accounts" and special fund pools in line with the regulations;
- To allocate funds or other wise to the economy and give cash, non-cash loans while following the principles of non-interest banking;
- To offer financial and operational leasing;
- To handle all kinds of deposits and payments, including travelers' checks, credit cards and other payment instruments, provide member business (POS), consulting, advisory, and safe deposit box services;
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking;
- To purchase, acquire and construct any kind of real estate and to decide if necessary lease or transfer ownership to other persons;
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies);
- And to provide socially responsible aid for the benefit of the community in the light of the legislations.

The Bank's activities are not limited to the list above. If another transaction is decided to be beneficial to the Bank, the transaction must be recommended by the Board of Directors, approved by the General Committee and the authorized by relevant legal authorities after which it also needs to be approved by the Ministry of Industry and Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels are included to the Article of Association.

The accompanying explanations and notes are an integral part of these financial statements

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**Section three**

**Accounting principles**

**I. Explanations on basis of presentation**

**a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on the Principles and Procedures Regarding Banks' Accounting Application and Safeguarding of Documents:**

The unconsolidated financial statements have been prepared in accordance with the 'Regulation on Accounting Applications for Banks and Safeguarding of Documents' published in the Official Gazette No.26333 dated 1 November 2006, which refers to 'Turkish Accounting Standards' (TAS) and 'Turkish Financial Reporting Standards' (TFRS) issued by the 'Turkish Accounting Standards Board' (TASB) and additional explanations and notes related to them and other decrees, notes and explanations related to accounting and financial reporting principles (all 'Turkish Accounting Standards' or 'TAS') published by the Banking Regulation and Supervision Agency. The Bank maintains its books in Turkish Lira in accordance with the Banking Act, Turkish Commercial Code and Turkish tax legislation.

In accordance with the Article 37 of the Banking Act 5411, the Banks must apply the unified accounting systems to the procedures and principles identified by the Banking Regulation and Supervision Agency (BRSA) by taking the international standards and opinions of the TASB and other associations of the banking sector into consideration; record all transactions in accordance with their underlying natures; prepare clear, reliable, comparable, easy to audit, analyze and comment, timely and accurate financial reports in a form and content that meets the requirements of attaining knowledge.

The unconsolidated financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities carried at fair value.

The preparation of unconsolidated financial statements in conformity with TAS requires the use of certain critical accounting estimates and predictions by the Bank's management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement.

**b. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements:**

The accounting policies and valuation principles applied in the preparation of unconsolidated financial statements are determined and applied in accordance with TAS. These accounting policies and valuation principles are explained in Notes II and XXII below:

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**c. Arrangement of the financial statements according to the current purchasing power of money:**

The financial statements of the Bank has been restated to reflect the changes in the general purchasing power of the Turkish Lira in accordance with Turkish Accounting Standard No: 29 "Financial Reporting in Hyperinflationary Economies" ("TAS29") until December 31, 2004. BRSA explained with its decision numbered 1623 and dated April 21, 2005 and its circular dated April 28, 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied beginning from January 1, 2005.

The functional and presentation currency of the Bank is Turkish Lira (TL). Current and prior period financial statements have been presented in thousands of TL in accordance with the circular of BRSA. Effective from January 1, 2005, concurrent with the removal of six zero digits, the new currency unit of Turkey was introduced as New Turkish Lira (YTL). The Government resolved to remove the "New" reference in the local currency unit effective January 1, 2009. The Bank's figures presented below as of September 30, 2009 are in TL using the conversion rate of TL 1= YTL 1.

**d. Reclassification changes on financial statements:**

In accordance with the clarification declared by the Banking Regulation and Supervision Agency (BRSA) related with 'Reserve Deposits' to the Association of the Participation Banks at January 3, 2008, some changes and reclassifications has been performed on the prior period's financial statements presented for comparison purposes.

'Profit share on reserve deposits' amounting to TL 10,027 has been classified under 'Profit share on banks' account in statement of income for the interim period ended September 30,2008 to be consistent with the presentation of the current financial statements.

**II. Explanations on strategy of using financial assets and foreign currency transactions**

The Bank follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank's exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank's equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira. Valuation differences of foreign currencies have been recognized in the income statement under the 'Net foreign exchange income/expense' account.

Foreign currency or foreign currency indexed receivables to be written off, doubtful commission, fees, other receivables, uncollectible loans and receivables, which are originated from equity or current accounts or the participation of the Bank to the loan in case it is originated from participation accounts is converted to Turkish Lira with the foreign currency rates prevailing at the date of the transfer of such receivables to non-performing loan portfolio. The portion of the risk of the foreign currency loans, which are originated from participation accounts are evaluated with the current foreign currency rates and the differences, are recorded foreign currency gains/losses account in the income statement.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement.

There are no foreign currency differences capitalized by the Bank.

The Bank also performs gold transactions. Gold transactions are accounted under "precious metal depot account" in cash and cash equivalents and valuation is performed with the current ounce of gold prices in the market.

**III. Explanations on forward transactions and option contracts and derivative instruments:**

The Bank enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. The Bank does not have embedded derivatives. The Bank classifies its derivative instruments as "Held for Hedging" and "Held for Trading" in accordance with TAS 39. Even though some derivative transactions economically hedge risk, since all necessary conditions to be defined as items suitable for financial risk hedging account are not met, they are recognized as "for trading purposes" within the framework of TAS 39, which are thus measured at fair value and are recorded in the "Derivative Financial Assets/Liabilities Held for Trading" account in the balance sheet.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their contractual values.

Fair values of foreign currency forward transactions are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under 'Trading Income/Loss' line in the income statement.

**IV. Explanations on profit share income and expense**

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. In accordance with the related regulation, the profit share accruals of non-performing loans are cancelled and are not recorded until the profit share income is realized. Commission incomes obtained from cash loans are presented as profit share income in income statement.

The Bank calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in "Funds Collected" account in the balance sheet.

**V. Explanations on fees and commission income and expenses**

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income when collected, fees and commission income/expenses are accounted on accrual basis.

In 2009, the portion of the commission and fees which are related to the reporting period and collected in advance for loans granted has been reflected to the income statement by using the internal rate of return method in accordance with provisions of TMS; remaining part of the commission and fees amounting to TL 17,773 which are related to the future periods has been recorded to the Deferred Revenues account under Other Liabilities account. Due to the difficulties in the IT systems, commissions and fees obtained for the loans granted in prior periods could not be decomposed and the balances of deferred revenues corresponding to the prior periods could not have been identified.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**VI. Explanations on financial assets**

The Bank categorizes its financial assets as 'Fair value through profit/loss', 'Available for sale', 'Loans and receivables' or 'Held to maturity'. Sale and purchase transactions of the financial assets mentioned above are recognized at the 'Settlement dates'. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

**a. Financial assets at fair value through profit or loss:**

This category has two sub categories: "Trading financial assets" and "Financial assets designated at fair value through profit/loss at initial recognition".

Trading financial assets are financial assets which are either acquired for generating a profit from short-term fluctuations in prices or dealers' margin, or are financial assets included in a portfolio and derivative instruments in which a pattern of short-term profit making exists.

Trading financial assets are initially recognized at transaction prices, which are assumed to be the fair value, and subsequently measured at fair value. All gains and losses arising from these valuations are reflected in the income statement.

The Bank has no financial assets designated as financial assets at fair value through profit or loss.

**b. Financial assets available for sale:**

Assets available for sale consist of mudharaba transactions which are based on profit/loss sharing. Such transactions are reflected in the financial statements at cost and less provision for impairment if any, since their fair values could not be determined reliably. Profit obtained from related transactions is recorded in 'Profit share income received from available for sale financial assets' account.

**c. Loans and receivables:**

Loans and receivables are non-derivative financial assets whose payments are fixed or can be determined, are unlisted in an active market and held for purchase or sale, financial assets at the fair value through profit or loss or financial assets held for sale. Loans and receivables initially at cost and subsequently recognized at the amortized cost calculated using the internal rate of return method. The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

**d. Held to maturity financial assets:**

Held to maturity financial assets are assets that are not classified under 'Loans and receivables' with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity. Held to maturity financial assets are initially recognized at cost, and subsequently carried at 'Amortized Cost' using the 'Internal Rate of Return'. Profit income from held to maturity financial assets is reflected in the income statement.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**VII. Explanations on impairment of financial assets:**

It is assessed whether there is objective evidence that a financial asset or group of financial assets is impaired at each balance sheet date. If such evidence exists, impairment is provided for the financial assets group as explained below.

i) Loans and receivables:

The Bank provides impairment for loans that may become doubtful in the future and records this against the income for the year. Impairment provision for the non-performing loans is the amount calculated by the Bank management by evaluating the loan portfolio on the grounds of risk and quality and considering the related legislation economic and other factors to countervail the possible losses.

If there is objective evidence that the loans might not be collected, the Bank reclassifies such loans to III., IV. and V. groups and provides impairment reserve in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on November 1, 2006 in the official Gazette numbered 26333 and "Communiqué for the amendment of the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on January 23, 2009 in the official Gazette numbered 27119. The Bank can provide specific provision by more than the minimum required rates for the loans with poor financial position and/or payment capability. In case of collections from impaired loans, the principal amount is reimbursed first and then profit share receivables are collected.

Collections related to the provisions provided in the current period for such loans are deducted from 'Provisions for Loan losses and Other Receivables' account in the income statement. Subsequent recoveries of amounts previously written off or provisions provided in prior periods are included in "other income" in the income statement.

Specific provision expenses in impairment expense account closed by reversal entry of free reserve account.

The Bank provides general provision in accordance with the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on November 1, 2006 in the official Gazette numbered 26333 and Communiqué for the amendment of the Communiqué of "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published on January 23, 2009 in the official Gazette numbered 27119.

ii) Financial assets held to maturity:

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is the difference between the present value which was calculated by rediscounting the predetermined cash flows in the future with the original profit share with the net book value; provision is provided for impairment and the provision is associated with expense accounts.

iii) Financial assets available for sale:

If there is objective evidence indicating that the fair value of an available for sale financial asset, of which decreases in the fair value of the asset has been accounted in the equity, has been impaired then the total loss which was accounted directly in the equity is transferred to the income statement as the related financial asset is removed from the equity.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

Impairment losses recognized in the income statement related to the investments in equity instruments classified as available for sale financial assets can not be reversed in the income statement. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on equity instruments cannot be reversed.

**VIII. Explanations on offsetting of financial assets and liabilities**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

**IX. Explanations on sale and repurchase agreements and lending of securities**

The Bank has no sale and repurchase agreements transactions and lending securities transactions.

**X. Explanations on assets held for sale and discontinued operations and related debts of these assets**

As mandated by the Banking Act 5411 article 57 "per Capital Markets Banks Act No. 2499, banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements and precious metal trade as seen appropriate by the committee, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were received due to receivables and debtors' obligations to the bank are set by the committee."

The assessment and disposal of assets held for sale and their accounting are determined by the official communication of "Principles and Procedures on Bank's Disposal of Precious Metals and Assets Held for Sale" No. 26333 published on November 1, 2006 in the Official Gazette.

Assets held for sale are measured at the lower of the carrying amount of assets and fair value less any cost incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the group of assets), to be disposed of together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the group of assets) shall be actively marketed in conformity with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or group of assets) can remain to be classified as assets (or group of assets) held for sale.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

In the case that the Bank has not disposed of the real-estate and commodities that were received due to receivables and debtors' obligations to the Bank within a year of receipt or failed to produce a solid plan for sale of the assets, the aforementioned assets have to be amortized and classified as fixed assets rather than assets held for sale.

If the sale of the real-estate and commodities that were obtained due to receivables and debtors' obligations to the Bank are tied to a finalized agreement with an installment schedule, the assets can remain in assets held for sale in the financial statements.

Discontinued operations are classified under disposals or held for sale. Discontinued operations are presented separately in the income statement. The Bank has no discontinued operations.

As of September 30, 2009, assets held for sale amounts to TL 7,040 (December 31, 2008 – TL 7,870).

**XI. Explanations on goodwill and other intangible assets**

Intangible assets are stated at cost adjusted for inflation until December 31, 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Bank comprise mainly computer software. In the determination of the useful lives of such assets, no specific criteria has been used, the useful lives of such assets acquired prior to 2004 has been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

As of September 30, 2009 there is no goodwill related to associates and subsidiaries.

**XII. Explanations on tangible assets**

Fixed assets are stated at cost adjusted for inflation until December 31, 2004, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, Leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost minus accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**XIII. Explanations on leasing transactions**

*Bank as a lessee*

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset has been notified, a provision for impairment is recognized.

Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term.

*Bank as a lessor*

The Bank, as a participation bank, acts as a lessor finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

**XIV. Explanations on provisions and contingent liabilities**

Provisions and contingent liabilities are accounted in accordance with "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are made and reflected in the financial statements when there is a present obligation as a result of a past event and the amount of the obligation can be estimated.

**XV. Explanations on liabilities regarding employee benefits**

**a) Defined benefit plans:**

In accordance with existing social legislation, the Bank is required to make severance pay to each employee who has completed over one year of service with the Bank and whose employment is not terminated due to retirement, resignation or misconduct.

The retirement pay provision recognized in the accompanying financial statements, is calculated based on "TAS 19", by using the "projection method" and based on upon factors derived using the experience of the retiring personnel, eligibility to receive retirement pay which is discounted by using the current market yield rate of government bonds at the balance sheet date.

The Bank's employees are not members of any pension fund, foundations, union or other similar entities.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**b) Defined contribution plans:**

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

**c) Short term benefits to employees:**

In accordance with "TAS 19", vacation pay liabilities are classified as "The Short Term Benefits to Employees" and accrued when they are qualify and not discounted.

Bank management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

**XVI. Explanations on taxation**

**Current tax**

In accordance with the Corporate Tax Law No 5520" published on June 21, 2006, the corporate tax rate has been decreased to 20%. The tax legislation provides for a temporary tax of 20% to be calculated and paid based on earnings generated for each quarter. The amounts thus calculated and paid offset the final corporate tax liability for the year.

Corporate tax returns are required to be filed by the twenty fifth day of the fourth month following the balance sheet date and taxes must be paid in one installment by the end of the fourth month.

Effective April 24, 2003, new fixed asset investments over 10 TL, which have an economic life and are directly related with the production of services, provides a deduction from the annual taxable income amounting to 40% of the cost of the fixed asset. Investment allowances with incentive certificates incurred prior to April 24, 2003, can be subject to 19.8% deductible if the Companies choose to forego the new deductions. Before the implementation of the new investment incentive application, effective January 1, 2006, all investment incentives could be carried forward indefinitely, however, as of January 1, 2006 the investment incentive application has been terminate. Unused qualifying capital investment amounts from periods prior to December 31, 2005 can be deducted from the corporate income tax base until the end of December 31, 2008. However, in this case corporate tax rate will be 30%. Furthermore, qualifying capital investments to be made until the end of December 31, 2008 within the scope of the investment projects started before December 31, 2005 will be subject to investment incentives until the end of December 31, 2008. In 2008, the Bank decided not to utilize its investment incentive allowance and therefore corporate tax rate for the Bank was 20%. In 2009, corporate tax rate applicable to the Bank is 20%.

Constitutional Court abolished 2006, 2007, 2008 phrases included in the temporary article numbered 69 of the Income Tax Law related to investment allowances. Thereby, time limitation related to investment allowance removed. Supreme Court concluded that reasoned decision of cancellation related to investment allowance become effective when it is published in the Official Gazette. Since, that reasoned decision has not been published in the Official Gazette; final decision about usage of investment allowance, which was not used until December 31, 2008 and transferred to year 2009 amounting to TL 61,108 and subject to stoppage at a rate of 19.8%, will be taken according to detailed explanation of Ministry of Finance.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

***Deferred tax***

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12"). Deferred tax asset is calculated on all temporary differences other than general provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis.

**XVII. Explanations on additional disclosures on borrowings**

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Bank does not apply risk saving techniques on related borrowings.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

**XVIII. Explanations on share certificates**

The Bank has no material costs for issuance of share certificates.

**XIX. Explanations on acceptances and availed drafts**

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

**XX. Explanations on government grants**

There are no government grants received by the Bank.

**XXI. Explanations on segment reporting**

The Bank operates in three main segments; Corporate and Commercial Banking; Retail Banking; International Banking, Treasury and Investment Banking. Each segment operates with unique products, and the operational results are followed based on these segments.

Segment reporting is disclosed in Section 4, Note VI.

**XXII. Explanations on other matters**

There are no other matters to be disclosed by the Bank.

**XXIII. Additional paragraph for convenience translation**

The effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Act No. 5411, the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying financial statements. Accordingly, the accompanying financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)****Section four****Information on financial structure****I. Explanations on capital adequacy standard ratio**

Capital Adequacy Standard Ratio is calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", which was published on November 1, 2006 in the Official Gazette numbered 26333. The calculation of Capital Adequacy Ratio includes the methods used in determining the Capital Adequacy Ratio, determination of risk weighted assets and non-cash credits in line with the relevant banking regulation and measuring the market risk and operational risk ratio in line with the same regulation. Based on the "Measurement and Assessment of Capital Adequacy of Banks", the capital adequacy ratio of the Bank is 14.82% (December 31, 2008 – 15.63%).

(\*) Leasehold Improvements amounting to TL 16,399 as of September 30, 2009, have been classified under tangible assets in the accompanying financial statements and are presented under deductions from the capital due to declaration of BRSA numbered 5379 on March 18, 2009. (As of December 31, 2008, Leasehold Improvements, 16,681 TL have been classified under tangible assets in the prior year financial statements and are not presented under deductions from the capital due to changes in the Uniform Chart of Accounts.)

(\*\*) In accordance with the first provisional article of the regulation on the equity of the banks considered as a deduction from capital up to January 1, 2009. Since January 1, 2009, it is considered as a deduction from core capital.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**II. Explanations on market risk**

The Bank has established market risk operations and has taken the necessary precautions in order to manage market risk within its financial risk management purposes under "Risk Management Systems" in accordance with BRSA Regulation on "Banks' Internal Systems" published in the Official Gazette No. 26333 dated November 1, 2006.

Risk management systems organizational and functional internal applications have been determined by the Board of Directors in accordance with the regulation mentioned above. The Bank approved the regulation related to the "Risk Management Systems and Working Procedures and Principles of the Risk Management Presidency". With this internal control and Treasury Directorship's Marketing and Liquidity Risk Management Policy and Application Procedures which is also approved by the Board of Director, determine the procedures of how to manage market risk. Additionally, the Board of Directors, without transfer of its responsibility, requires the consent of the risk management group and the top management of the Bank to take necessary actions in order to identify, measure, control and manage the risks that the Bank is exposed to.

Additionally, in accordance with the official communication on "Measurement and Assessment of Capital Adequacy of Banks", published in the same Official Gazette as mentioned above, and in the context of other related regulations, the Bank has started to calculate the amount subject to market risk with the Standard Method and reported to BRSA and has been considered in the capital sufficiency calculation of the Bank.

The capital which should be kept against general market risk and specific risks, is calculated and monthly reported in accordance with the "Marketing risk measurement process with standard method" which is the third chapter of "Calculation of Marketing Risk Amount" of the "Communiqué on the "Measurement and Assessment of Capital Adequacy of Banks". As of September 30, 2009, the details of marketing risk calculated in accordance with the mentioned method are as follows:

**a. Information related to market risk:**

	<b>Amount</b>
(I) Capital Requirement to be Employed For General Market Risk - Standard Method	8
(II) Capital Requirement to be Employed For Specific Risk - Standard Method	8
III) Capital Requirement to be Employed For Currency Risk - Standard Method	1,720
(IV) Capital Requirement to be Employed For Commodity Risk - Standard Method	1,491
(V) Capital Requirement to be Employed For Settlement Risk - Standard Method	-
(VI) Total Capital Requirement to be Employed For Market Risk Resulting From Options - Standard	-
(VII) Total Capital Requirement to be Employed For Market Risk in Banks Using Risk Measurement	-
(VIII) Total Capital Requirement to be Employed For Market Risk (I+II+III+IV+V+VI)	3,227
(IX) Amount Subject to Market Risk (12.5 x VIII)	40,338

**b. Average market risk table calculated at the end of each month in the current period:**

This section has not been prepared in accordance with the article 25 of the Communiqué on Bank's Publicly Disclosed Financial Statements and Relevant Explanations and Footnotes.

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**III. Explanations on operational risk**

The "Basic Indicator Method" is used in the calculation of Bank's operational risk. The base amount of operational risk is calculated using the 2008, 2007, and 2006 gross income of the Bank in accordance with the "Calculation of the Operational Risk" effective from June 1, 2007, Part IV of the "Regulation Regarding Measurement and Evaluation of the Bank's Capital Sufficiency Ratio" published in the Official Gazette No. 26333 dated November 1, 2006. Not all of the TL 583,487 used in the calculation of operational risk in the scope of "Capital Adequacy Standard Ratio" stated in Note 1 of this section, but only the TL 46,679, corresponding to the 8%, represents the operational risk the Bank is exposed to. TL 46,679 also represents the minimum capital amount required to remove the related risk.

**IV. Explanations on currency risk**

Foreign currency risk arises from the Bank's possible exposure to the changes in foreign currencies. All foreign currency assets, liabilities and foreign currency forward transactions are considered while capital to be employed for foreign currency risk is calculated according to Standard Method.

The Bank follows the designated limits daily by Board of Directors and additionally observes the possible value changes in foreign currencies. The limits are determined and followed for net foreign currencies position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions can be used to mitigate the risk.

As of September 30, 2009, the Bank carries a net foreign currency long position of TL 15,122 (December 31, 2008- TL 11,812 long position) consisting TL 485,721 of long balance sheet position (December 31, 2008 – TL 582,626 long position) and TL 470,599 off balance sheet short position (December 31, 2008 - TL 570,814 short position).

The announced current foreign exchange buying rates of the Bank as of September 30, 2009 and the previous five working days are as follows:

	23/09/2009	24/09/2009	25/09/2009	28/09/2009	29/09/2009	Balance sheet evaluation rate
USD	1.4683	1.4732	1.4740	1.4809	1.4859	1.4820
CHF	1.4210	1.4373	1.4375	1.4362	1.4367	1.4272
GBP	2.3970	2.4160	2.3901	2.3696	2.3581	2.3549
JPY	0.0161	0.0161	0.0162	0.01635	0.01657	0.0165
EUR	2.1573	2.1786	2.1768	2.174	2.1747	2.1603

The simple arithmetic averages of the major current foreign exchange buying rates of the Bank for the thirty days preceding the balance sheet date are as follows (full TL):

	Monthly average FC purchase rate
USD	1.4833
CHF	1.4224
GBP	2.4277
JPY	0.0162
EUR	2.1592

**Kuveyt Türk Katılım Bankası Anonim Şirketi**

**Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

**Foreign currency sensitivity:**

The Bank is mainly exposed to EUR and USD currency risks.

The following table details the Bank's sensitivity to a change of 10% in the USD and EURO. A negative amount indicates a decrease/increase effect in profit/loss and equity where the TL strengthens/weakens with ratio of %10 against USD and EUR.

	Change in currency rate in %	Effect on profit or loss		Effect on equity	
		Current period	Prior period	Current period	Prior period
USD	%10	886	636	-	-
EURO	%10	264	323	-	-

**V. Explanations on liquidity risk**

Liquidity risk represents risk of not having sufficient cash or cash inflows to completely meet the cash outflows on time as a result of volatile cash fluctuation.

Liquidity risk may also result from inability to penetrate to market or change positions quickly at suitable prices and amounts due to market disruptions or barriers. To mitigate liquidity risk, the Bank diversifies funding sources (customer funds and funds borrowed from abroad) and keeps a certain level of assets as cash and cash equivalents.

The Bank determines the liquidity position daily and the treasury department manages market transactions in accordance with the liquidity position of the Bank. Indicators of liquidity conditions are analyzed at the weekly Asset/Liability meetings with the participation of top management.

As a result of general strategy of the Bank, maturity structure of the assets, liabilities and profit share ratio compatibility is obtained by assets/liabilities management strategy. In addition, the Bank tries to have positive difference between revenue and cost of TL and foreign currency assets and liabilities.

**VI. Explanations on business segments**

The Bank operates in Corporate and Commercial Banking, Retail Banking, International Banking – Treasury and Investment Banking sectors.

Corporate and Commercial Banking: to meet the financial needs of the customers', unique cash flow and financial solutions are provided to customers through loans, non-cash loans, foreign trade financing services and similar customized products. Domestic and foreign business opportunities are supported by using different corporate banking instruments to serve the sustainability of the production of entities.

Retail Banking; there are four main activities: fund collection, consumer financing, credit cards and alternative distribution channels. The Bank serves in the range of products of profit share accounts creation, banking services, Trade Finance, Checks, POS services, Credit Cards, ATM services, Online Banking and Mobile Banking in these fields.

**Kuveyt Türk Katılım Bankası Anonim Şirketi****Notes related to unconsolidated financial statements  
for the interim period ended September 30, 2009 (continued)  
(Currency - Thousand Turkish Lira)**

International Banking: In International Banking, the relationships with foreign correspondent banks and investment institutes are executed directly or via branches abroad, representative offices and agencies. The aim of international banking is to enable foreign trade financing and develop mutual long term financing agreements with foreign banks. The Matched Murabaha is offered to SME's and international investors to meet the financing needs of SME's with international funds. Besides supplying syndicated loans for the Bank, investment banking also supplies syndicated loans in corporate basis for the firms and groups in Turkey. Foreign currency position and liquidity is followed by the treasury in addition to the spot and forward transactions in TL or foreign currencies, performing derivative transactions (Forward, SWAP) with banks and customers, trading of gold within the context of membership of Istanbul Gold Exchange, trading of share certificates in Istanbul Stock Exchange and international markets and Murabaha transactions with foreign banks.

9. Main guidelines for liquidation process of uncollectible loans and other receivables:

Loans and other receivables, which were deemed uncollectible according to the "Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans" published in the Official Gazette No. 26333 dated November 01, 2006 and for which a full impairment provision has been provided, have been written-off per the decision of the Bank management. In 2009, non-performing loans amounting to TL 80,298 were written-off respectively (December 31, 2008 – TL 32,020).

10. Information on the write-off policy:

The write-off policy of the Bank for receivables under follow up is to retire the receivables from assets in case of verification of the inability of collection through follow-up by the decision of Board of Directors.

**f. Information on held-to-maturity investments (Net):**

1. There are no held-to-maturity investments subject to repurchase transaction, given as a guarantee or blocked (December 31, 2008 – None).

3. Information on finance lease contracts:

The Bank determines the settlements of the financial lease agreements in accordance with related legislations. Payment terms and amounts may be rearranged with additional agreements upon customers' requests. On the agreements, the Bank gives the customer the option to buy the related property. According to the Financial Lease Law, if a customer does not fulfill its obligations, the Bank sends a notice to the customer and informs them that if the obligations are not fulfilled within 60 days the financial lease agreement will be terminated. If the customer does not fulfill its obligations in 60 days, the Bank takes legal action against the customer. Non performing finance lease receivables amounting to TL 16,170 (December 31, 2008 – TL 16,606) are included in the non-performing loans. Impairment provision amounting to TL 6,179 (December 31, 2008 – TL 6,074) for financial lease receivables are included under the specific provision account in the balance sheet.

k. **Information on derivative financial assets for hedging purposes:** None (December 31, 2008 – None).

3. Information on other provisions:

	Current period	Prior period
General provisions for possible risks	5,921	7,113
Provisions from equity/profit sharing accounts	-	-
Other	5,921	7,113

The Bank was the defendant in a lawsuit related to the export intermediary transactions carried out in 1995. The Tax Court ruled against the Bank, in 2002 the Bank realized a payment made to the tax office amounting to TL 5,301 and applied to the Supreme Court to appeal the decision. The Bank capitalized the payment amount in other assets account in the financial statements, since it is expected that Supreme Court's decision will be in favor of the Bank. In 2003, the Bank has filed a lawsuit, to benefit from the tax peace law. In May 2005, the case resulted in favor of the Bank and the Bank collected back an amount of TL 3,551, and deducted the collection from the related asset account. However, in 2005 the Bank has provided a provision amounting to TL 5,301 in accordance with the conservatism principle, since the outcome of appeal stage was still outstanding. In the current period, appeal process has been resulted and the Bank reached a settlement with Tax Administration. The Bank agreed with the Tax Administration that the tax penalty will be paid in 18 months and a discounted provision amounting to 1,321 has been provided in the accompanying financial statements.

4. Information on provisions for employee rights:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 4,594 (December 31, 2008 – TL 3,721), vacation pay liability amounting to TL 468 (December 31, 2008 – None) and performance premium calculated for the current period amounting to TL 11,400. Provision for employee benefits' line of the prior year financial statements includes performance premium of 2008 amounting to TL 13,750 which was paid in 2009.

Under the Turkish Labor Law, the Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or get right to retire.

The amount payable consists of one month's salary limited to a maximum of TL 2.365 (December 31, 2008 – TL 2.173) for each year of service. The liability is not funded, as there is no funding requirement.

The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability:

	Current period	Prior period
Discount rate (%)	12	12
Estimated increase rate of salary ceiling (%)	5.4	5.4

Movements in the reserve for employment termination benefits during period are as follows:

	Current period	Prior period
Balance at the beginning of the period	3,721	3,189
Provisions recognized during the period	1,499	1,066
Paid during the period	(626)	(534)
<b>Balances at the end of the period</b>	<b>4,594</b>	<b>3,721</b>
