**(CONVENIENCE TRANSLATION OF THE REPORT ON REVIEW OF INTERIM FINANCIAL
INFORMATION ORIGINALLY ISSUED IN TURKISH)**

**REPORT ON REVIEW OF INTERIM
FINANCIAL INFORMATION**

To the Board of Directors of Kuveyt Türk Katılım Bankası A.Ş.

Introduction

We have reviewed the accompanying balance sheet of Kuveyt Türk Katılım Bankası A.Ş. (“the Bank”) as at 30 June 2016, and the statement of income, statement of income and expense items under shareholders’ equity, statement of changes in shareholders’ equity and statement of cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. The Bank management is responsible for the preparation and fair presentation of the accompanying interim financial information in accordance with “the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Regulations” including the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standard 34 “Interim Financial Reporting” principles for the matters not legislated by the aforementioned regulations. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with the Independent Auditing Standard on Review Engagements 2410, “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit conducted in accordance with Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information does not present fairly, in all material respects, the financial position of Kuveyt Türk Katılım Bankası A.Ş. as at 30 June 2016, and of the results of its operations and its cash flows for the six-month period then ended in accordance with the BRSA Accounting and Reporting Regulations.

Report on Other Legal and Regulatory Requirements

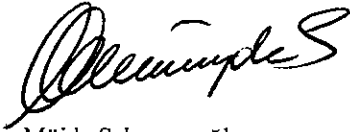

Based on our review, nothing has come to our attention that causes us to believe that the interim financial information provided in the Management's interim report included in Section 8 of the accompanying financial statements, is not presented fairly, in all material respects, and is not consistent with the reviewed interim financial statements and the explanatory notes.

Additional paragraph for English translation:

The effect of the differences between the accounting principles summarized in Section 3 and the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified and reflected in the accompanying financial statements. The accounting principles used in the preparation of the accompanying financial statements differ materially from IFRS. Accordingly, the accompanying financial statements are not intended to present the Bank's financial position and results of its operations in accordance with accounting principles generally accepted in such countries of users of the financial statements and IFRS.

FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION ONE

GENERAL INFORMATION

I. History of the Bank including its incorporation date, initial legal status and amendments to legal status:

Kuveyt Türk Katılım Bankası A.Ş. ("The Bank") was incorporated with the approval of the Central Bank of the Republic of Turkey (CBRT) on 28 February 1989 and commenced its operations on 31 March 1989, with the name of Kuveyt Türk Evkaf Finans Kurumu A.Ş. To comply with the Banking Act 5411, the title of the Bank has been changed to Kuveyt Türk Katılım Bankası A.Ş. with a change in the Articles of Association which was approved in the annual general meeting dated 26 April 2006. Main field of operation is, in addition to the Bank's equity, to collect funds from domestic and foreign customers through "Current Accounts" and "Profit/ Loss Sharing Accounts" and allocate such funds to the economy, to perform all kinds of financing activities in accordance with the regulations, to encourage the investments of all individuals and legal entities operating in agricultural, industrial, trading and service industries, participating into the operations of these entities or individuals and to form joint business partnerships and to perform all these activities in a non-interest environment.

II. Shareholding Structure, Shareholders Jointly or Individually Having Direct or Indirect, Control over the Management and Supervision of the Bank and the Disclosures on Any Related Changes in the Current Period, if any and information about the Group that the Bank belongs to:

As of 30 June 2016, 62.24% of the Bank's shares are owned by Kuwait Finance House located in Kuwait, 18.72% by Vakıflar Genel Müdürlüğü Mazbut Vakıfları, 9.00% by The Public Institution For Social Security in Kuwait and 9.00% by Islamic Development Bank whereas the remaining 1.04% of the shares are owned by other real persons and legal entities.

III. Explanations on the Titles of Chairman and Members of the Board of Directors, Members of the Audit Committee, General Managers and Assistant General Managers and Their Shareholdings in the Bank:

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Information on qualified shareholders:

Name / Commercial Name	Share amount (Nominal)	Shareholding percentage	Paid shares (Nominal)	Unpaid shares
Kuwait Finance House	1,736,531	%62.24	1,736,531	-
Vakıflar Genel Müdürlüğü Mazbut Vakıfları	522,267	%18.72	522,267	-
Total	2,258,798	%80.96	2,258,798	-

As of 30 June 2016, the shares of parent shareholder of Bank, Kuwait Finance House (“KFH”) are 52.12% publicly traded; 24.08% of KFH belongs to Kuwait Investment Authority and 10.48% belongs to Public Authority for Minors Affairs.

V. Explanations of the Bank’s services and field of operations

The Bank’s field of operations includes corporate banking, international banking services, and retail banking and credit card services. The Bank’s core business is operating in accordance with the principles of interest-free banking as a participation bank by collecting funds through current and profit/loss sharing accounts, and lending such funds to its customers. As of 30 June 2016, the Bank is operating through 377 domestic branches (31 December 2015 – 359) with 5,367 employees (31 December 2015 – 5,442). Summary of some of the Bank’s operations described in the Articles of Association are as follows:

- To collect funds through “Current Accounts” and “Profit/Loss Sharing Accounts” and special fund pools in line with the regulations;
- To allocate funds to the economy and provide all kinds of cash, non-cash loans within the principles of non-interest banking;
- To offer financial and operational leasing;
- To handle all kinds of deposits and payments, including travelers’ checks, credit cards and other payment instruments, provide member business services (POS), consulting, advisory, and safe deposit box services;
- To purchase financial instruments on money and capital markets in cash or installments, sell and mediate the sale and trade on the stock exchange in accordance with legislation and principles of non-interest banking;
- To purchase, acquire and construct any kind of real estate and if necessary lease or transfer ownership to other persons;
- To act as a representative, deputy or agent for corporations and enterprises (including insurance companies);
- To provide socially responsible aid for the benefit of the community in the light of the legislations.

The Bank’s activities are not limited to the list above. If another transaction is decided to be beneficial to the Bank, the transaction must be recommended by the Board of Directors, approved by the General Assembly and authorized by relevant legal authorities after whom it also needs to be approved by the Ministry of Customs and Trade since it constitutes an amendment of the Article of Association. Decisions that have been approved through all these channels will be included to the Article of Association.

VI. Current or likely actual legal barriers to immediate transfer of equity or repayment of debts between Parent Bank and its subsidiaries:

None.

The accompanying notes are an integral part of these financial statements

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

SECTION THREE
ACCOUNTING PRINCIPLES

I. Explanations on basis of presentation

a. The preparation of the financial statements and related notes and explanations in accordance with the Turkish Accounting Standards and Regulation on Accounting Applications for Banks and Safeguarding of Documents:

The Bank prepares its financial statements in accordance with “the Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Regulation” which includes the regulation on “The Procedures and Principles Regarding Banks’ Accounting Practices and Maintaining Documents” published in the Official Gazette dated 1 November 2006 with No. 26333, and other regulations on accounting records of banks published by the Banking Regulation and Supervision Board and circulars and pronouncements published by the BRSA and Turkish Accounting Standards published by the Public Oversight Accounting and Auditing Standards Authority for the matters not regulated by the aforementioned legislations.

b. Classification

Expertise expense amount of TL 10,429 that is presented under Other Operating Income in previous period’s statement of income, is classified under “Fees and Commissions Given” in current period for consistency of presentation.

c. Accounting policies and valuation principles applied in the preparation of unconsolidated financial statements:

The financial statements have been prepared in TL, under the historical cost convention except for the financial assets and liabilities held for trading carried at fair value.

The preparation of unconsolidated financial statements in conformity with TAS requires the Bank management to make assumptions and estimates with respect to assets and liabilities on the balance sheet and contingent issues outstanding as of the balance sheet date. These assumptions and estimates are mainly related with the determination of the fair values of the financial instruments and determination of the impairments on assets and these assumptions are being reviewed regularly and, when necessary, appropriate corrections are made and the effects of these corrections are reflected to the income statement.

d. Preparation of the financial statements in the current purchasing power of money:

Until 31 December 2004, the financial statements of the Bank were subject to inflation adjustments in accordance with Turkish Accounting Standard No: 29 “Financial Reporting in Hyperinflationary Economies” (“TAS 29”). BRSA explained with its decision numbered 1623 and dated 21 January 2005 and its circular dated 28 April 2005 that the conditions for applying inflation accounting was no longer applicable and accordingly inflation accounting has not been applied beginning from 1 January 2005.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on strategy of using financial instruments and foreign currency transactions

The Bank follows an asset-liability management strategy that mitigates risk and increases earnings by balancing the funds borrowed and the investments in various financial assets. The main objective of asset-liability management is to limit the Bank's exposure to liquidity risk, currency risk and credit risk while increasing profitability and strengthening the Bank's equity. The assets-liabilities committee (ALCO) manages the assets and liabilities within the trading limits on the level of exposure placed by the Executive Risk Committee.

Gains and losses arising from foreign currency transactions have been recorded in the period in which the transaction took place. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates published by the Central Bank of Turkey converting them into Turkish Lira and valuation differences of foreign currencies have been recognized in the income statement under the net foreign exchange income/expense account.

The Bank's portion of risk regarding loans originating from participation accounts followed in receivables to be written off, doubtful commission, fees and other receivables, uncollectible loans and other receivables, along with foreign currency (FC) loans and receivables originating from the Bank's equity and private current accounts are converted to Turkish Lira with the rates prevailing at the date of the transfer of such receivables to non-performing loan portfolio. The participation accounts' portion of the risk of the foreign currency loans and FC pegged loans, originating from participation accounts, is evaluated with the current foreign currency rates and the differences are recorded foreign currency gains/losses account in the income statement.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments into Turkish Lira are included in the income statement. There are no foreign currency differences capitalized by the Bank.

III. Investments in associates and subsidiaries

Turkish currency denominated associates and subsidiaries are measured at cost value in accordance with the "Consolidated and Separate Financial Statements" ("TAS 27") and then deducted by provisions for impairment losses, if any, reflected to the accompanying unconsolidated financial statements.

IV. Explanations on forward transactions and option contracts and derivative instruments

The Bank enters into forward agreements to decrease its currency risk and to manage its foreign currency liquidity. The Bank classifies its derivative instruments as "Derivative Financial Instruments Held for Hedging Purposes" and "Derivative Financial Instruments Held for Trading" in accordance with TAS 39. Even though some derivative transactions economically hedge risk, since all necessary conditions for hedge accounting are not met, they are accounted for as "held for trading" within the framework of TAS 39, and are reflected in the "Derivative Financial Assets/Liabilities Held for Trading" account in the balance sheet. The Bank has no derivative financial assets/liabilities for hedging purposes as of balance sheet date.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their notional amounts.

Fair values of foreign currency forward transactions and swaps are calculated by using the discounted cash flow model. Differences resulting from the changes in the fair values of derivatives held for trading are accounted under 'Trading Income/Loss' line in the income statement.

Embedded derivatives are separated from the host contract if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host contract, a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative and the hybrid instrument is not measured at fair value with changes in fair value recognized in profit or loss. Embedded derivatives are accounted as derivative instruments in-line with TAS 39. If the embedded derivatives are closely related with the host contract, embedded derivatives are accounted for in-line with the relevant standard applicable for the host contract.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Explanations on forward transactions and option contracts and derivative instruments (continued)

The Bank enters into profit share rate and cross currency swap transactions in order to hedge the changes in cash flows of the floating-rate financial instruments. While applying cash flow hedge accounting, the effective portion of the changes in the fair value of the hedging instrument is accounted for under hedging reserves in shareholders' equity, and the ineffective portion is recognised in income statement. The changes recognised in shareholders' equity is removed and included in income statement in the same period when the hedged cash flows effect the income or loss.

The Bank performs effectiveness test at the beginning of the hedge accounting period and at each reporting period. The effectiveness tests are carried out using the "Dollar off-set model" and the hedge accounting is applied as long as the test results are between the range of 80%-125% of effectiveness. The hedge accounting is discontinued when the hedging instrument expires, is exercised, sold or no longer effective. When discontinuing fair value hedge accounting, the cumulative fair value changes in carrying value of the hedged item arising from the hedged risk are amortised to income statement over the life of the hedged item from that date of the hedge accounting is discontinued.

While discontinuing cash flow hedge accounting, the cumulative gains/losses recognised in shareholders' equity and presented under hedging reserves are continued to be kept in this account. When the cash flows of hedged item are recognised in income statement, the gain/losses accounted for under shareholders' equity, are recognised in income statement.

V. Explanations on profit share income and expense

Profit share income is recognized in the income statement on an accrual basis by using the method of internal rate of return and is accounted under profit share income account in the financial statements. In accordance with the related regulation, the profit share accruals of non-performing loans are cancelled and are not recorded until the profit share income is realized.

The Bank calculates expense accrual in accordance with the unit value calculation method on profit/loss sharing accounts and reflects these amounts in "Funds Collected" account on the balance sheet.

VI. Explanations on fees and commission income and expenses

Except for the fees and commission income and expenses obtained for some banking services which are recorded as income when collected, fees and commission income/expenses are reflected in the income statement over the period of the related transaction.

In accordance with the provisions of TAS, commission and fees collected in advance for loans granted are deferred and reflected to the income statement by using the internal rate of return method. Unearned portion of the commission and fees relating to the future periods are recorded to the "Unearned Revenues" account under "Other Liabilities" on the balance sheet.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VII. Explanations on financial assets

The Bank classifies and accounts for its financial assets as 'Fair value through profit/loss', 'Available for sale', 'Loans and receivables' or 'Held to maturity'. Sale and purchase transactions of the financial assets mentioned above are recognized at the 'Settlement dates'. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of the investment.

a. Financial assets at fair value through profit or loss:

This category has two sub categories which are "Trading financial assets" and "Financial assets designated at fair value through profit/loss at initial recognition".

Trading financial assets are financial assets which are either acquired for generating a profit from short-term fluctuations in prices or dealers' margin, or are financial assets included in a portfolio and derivative instruments in which a pattern of short-term profit making exists.

Trading financial assets are initially recognized at transaction prices, which are assumed to be the fair value, and subsequently measured at fair value. All gains and losses arising from these valuations are reflected in the income statement.

Other than trading financial assets, the Bank has no financial assets at fair value through profit or loss.

b. Financial assets available for sale:

Financial assets available for sale are initially recognized at cost; which reflects their fair values; including the transaction costs. Financial assets classified as available for sale financial assets which do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less impairment, if any.

Financial assets available-for-sale gains and losses are valued using internal rate of return and recorded in the income statement as profit share income. Financial assets available-for-sale profit share rediscunts recognized in the profit/share account, current value differences recognized in the "securities value increase fund" under the shareholders' equity. In case of sales, the realized gain/losses in the shareholders' equity are recognized directly in the income statement.

c. Loans and receivables:

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not listed in an active market and are not classified as held for trading, financial assets at the fair value through profit or loss or as available for sale. Loans and receivables are initially recognized at cost, which is assumed to reflect their fair value and subsequently recognized at the amortized cost calculated using the internal rate of return method. The expenses incurred for the loans and receivables received as collateral are not considered as transaction costs and are recognized in the expense accounts.

d. Held to maturity financial assets:

Held to maturity financial assets are financial assets with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity that are not classified under 'Loans and receivables'. Held to maturity financial assets are initially recognized at cost which is assumed to reflect their fair value, and subsequently carried at 'Amortized Cost' using the 'Internal Rate of Return'. Profit share income from held to maturity financial assets is reflected in the income statement. The Bank does not have any held to maturity financial assets as of the balance sheet date.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

VIII. Explanations on impairment of financial assets

At each balance sheet date an assessment is made as to whether there is objective evidence that a financial asset or group of financial assets is impaired. If such evidence exists, impairment is provided for financial asset categories as explained below.

i) Loans and receivables:

If there is objective evidence that the loans might not be collected, the Bank reclassifies such loans to III. IV. and V. groups and provides impairment reserve in accordance with the Communiqué of “Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans” published on 1 November 2006 in the Official Gazette No: 26333. For the loans with poor financial position and/or payment capability, the Bank can provide a specific impairment reserve in excess of the amounts calculated using the minimum required rates for the related group.

Collections related to the provisions provided in the current period for such loans are deducted from ‘Provisions for Loan Losses and Other Receivables’ account in the income statement. Subsequent recoveries of amounts previously written off or provisions made in prior periods are included in “Other Operating Income” in the income statement.

ii) Financial assets held to maturity:

If there is objective evidence indicating that the value of financial assets held to maturity is impaired, the amount of the loss is measured as the difference between the present values of future estimated cash flows discounted using the original profit share and the carrying value; provision is made for impairment and the provision is associated with expense accounts.

iii) Financial assets available for sale:

If there is objective evidence indicating that the fair value of an available for sale financial asset, for which decreases in the fair value has been accounted under the equity, has been impaired then the total loss which was accounted directly in the equity is transferred from equity to the income statement.

Impairment losses recognized in the income statement related to the investments in equity instruments classified as available for sale financial assets cannot be reversed through the income statement. If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, the amount of the loss is measured as the difference between the asset’s carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Impairment losses on equity instruments cannot be reversed.

IX. Explanations on offsetting of financial assets and liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and there is an intention to collect/pay the related financial assets and liabilities on a net basis, or to realize the asset and settle the liability simultaneously.

X. Explanations on sale and repurchase agreements and lending of securities

Central Bank of the Republic of Turkey (“CBRT”) made some changes on orders for open market transactions (“OMT”) and prepared an additional frame contract for participation banks in order to present rent certificates to open market operations of CBRT in accordance with the principles of participation banks. According to this agreement; a new type of transaction was formed which enables participation banks to resell or repurchase rent certificates on their portfolio to CBRT when they are in need of funding or in attempt to evaluate the excess liquidity. In this content, initial OMT transaction was performed with CBRT on 14 June 2013 by selling rent certificates that are recognized in the assets of the Bank in return for conditional repurchasing. Beginning from this date, the Bank performs purchase tenders which are held by CBRT of which maturities are weekly; in return for Treasury rent certificates that are reported as assets in balance sheet in order to raise funds.

As of 30 June 2016, the Bank has repurchasing agreements amounting to TL 1,094,805 (31 December 2015 – TL 711,542).

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XI. Explanations on assets held for sale and discontinued operations and related liabilities

As mandated by the Banking Act 5411 Article 57 “banks cannot participate in commercial real-estate and commodity trade with the exception of real-estate and commodity based agreements within the scope of Capital Markets Act No. 2499, and precious metal trade as seen appropriate by the board, and cannot participate in partnerships with firms whose main business activity is commercial real-estate, with the exception of real-estate investment partnerships and companies that finance mortgaged residential estates. The rules and procedures regarding the sales of real-estate and commodities that were acquired due to receivables and debtors’ obligations to the bank are determined by the board.”

The principles for valuation and accounting for disposal of assets acquired by banks in return for their nonperforming loans are determined by the official communication of “Principles and Procedures on Bank’s Disposal of Precious Metals and Assets Held for Sale” No. 26333 published on 1 November 2006 and No. 26592 published on 24 April 2007 in the Official Gazette.

Assets that meet the criteria for classification as assets held for sale are measured at the lower of the carrying amount of assets and fair value less any costs to be incurred for disposal. Assets held for sale are not amortized and presented in the financial statements separately. In order to classify an asset as held for sale, the sale should be highly probable and the asset (or disposal group) should be available for immediate sale in its present condition. Highly saleable condition requires a plan by the management regarding the sale of the asset (or the disposal group) together with an active program for the determination of buyers as well as for the completion of the plan. Also the asset (or the disposal group) should be actively in the market at a price consistent with its fair value. In addition, the sale is expected to be recognized as a completed sale within one year after the classification date and the necessary transactions and procedures to complete the plan should demonstrate the fact that there is remote possibility of making any significant changes in the plan or cancellation of the plan. Various events and conditions may extend the completion period of the disposal over one year. If such delay arises from any events and conditions beyond the control of the entity and there is sufficient evidence that the entity has an ongoing disposal plan for these assets, such assets (or disposal group) can remain to be classified as assets (or disposal group) held for sale. Extension of the period necessary to complete the sale, does not avoid the classification of the related asset (or disposal group) to be classified as asset held for sale.

Although the Bank has assets acquired due to receivables and debtors’ obligations to the Bank, such assets are classified as fixed assets rather than assets held for sale and are amortized due to inability to dispose them or to produce a solid plan for disposal within a year within the provisions of banking legislation.

On the other hand properties acquired by the Bank due to receivables and debtors’ obligations to the Bank are reflected as assets held for sale in the financial statements provided that there is a contracted term sale agreement.

A discontinued operation is a component of an entity that either has been disposed of, or is classified as held for sale. Discontinued operations are presented separately in the income statement. The Bank has no discontinued operations.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XII. Explanations on goodwill and other intangible assets

Intangible assets are stated at cost adjusted for inflation until 31 December 2004, less provision for impairment, if any, and accumulated amortization and amortized with straight-line method.

The other intangible assets of the Bank comprise mainly computer software. The useful lives of such assets acquired prior to 2004 have been determined as 5 years and for the year 2004 and forthcoming years, as 3 years.

There is no goodwill related to associates and subsidiaries.

XIII. Explanations on tangible assets

Fixed assets are stated at cost adjusted for inflation until 31 December 2004, less accumulated depreciation and provision for impairment, if any.

Depreciation is calculated on a straight-line basis over the estimated useful life of the assets. The annual rates used for amortization are as follows:

Property	2%
Movables, Leased assets	6.67% - 20%

Depreciation is calculated on a pro-rata basis for the assets that have been placed in use for less than one year as of the balance sheet date. Leasehold improvements are depreciated over the term of the lease agreements by straight-line method.

If the recoverable amount (the higher of value in use and fair value) of a tangible asset is less than its carrying value, impairment loss is provided and the carrying value is written down to its recoverable amount.

Gains or losses resulting from disposals of the fixed assets are recorded in the income statement as the difference between the net proceeds and net book value of the asset.

Expenses for repairs are capitalized if the expenditure increases economic life of the asset; other repair costs are expensed.

The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

Property held for long-term rental yields and/or capital appreciation is classified as investment property. Investment properties are stated at cost less accumulated depreciation and any impairment in value. Depreciation is calculated on a straight-line basis over the estimated useful lives of the properties.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XIV. Explanations on leasing transactions

Bank as a lessee

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset is identified, a provision for impairment is recognized.

Operating lease payments are recognized as an expense in the income statement on a straight-line basis over the lease term.

Bank as a lessor

The Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XV. Explanations on provisions and contingent liabilities

Provisions and contingent liabilities are accounted for in accordance with “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (TAS 37).

Provisions are recognized when the Bank has a present obligation, legal or constructive, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The Bank recognizes provisions for obligations which arose from prior periods in current financial year, only if, the possibility of realization is high and a reliable estimation can be made.

A provision is provided if liabilities have been originated as a result of past events in the period they arise, if it is probable that the liability will be settled and a reliable estimate for the liability amount can be made.

When a reliable estimate of the amount of the obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, the obligation is considered as a “Contingent” liability and is disclosed in the related notes to the financial statements.

XVI. Explanations on liabilities relating to employee benefits

a) Defined benefit plans:

In accordance with existing social legislation, the Bank is required to make severance pay to each employee who has completed over one year of service with the Bank and who retires or quits the employment to receive old age or disability benefits, to fulfill the compulsory military service, because of the marriage (for females) or because of the other compulsive reasons as defined in the laws and whose employment is terminated due to reasons other than resignation or misconduct.

Liabilities amount which is related to “Turkish Accounting Standard on Employee Benefits” (“TAS 19”) is reflected accompanying financial statements and these liabilities are calculated by an independent actuary firm. Bank is accounted all actuarial profit and loss under Statement of other Comprehensive Income.

The Bank’s employees are not members of any pension fund, foundations, union or other similar entities.

b) Defined contribution plans:

The Bank pays defined contribution plans to publicly administered Social Security Funds for its employees as mandated by the Social Security Association. The Bank has no further payment obligations other than this contribution share. The contributions are recognized as employee benefit expense when they are due.

c) Short term benefits to employees:

In accordance with “TAS 19”, vacation pay liabilities are defined as “Short Term Benefits to Employees” and accrued as earned.

Bank management calculates bonus accrual if it foresees that the budgeted year-end figures approved by the Board of Directors are attainable.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVII. Explanations on taxation

Current tax

The corporate tax rate in Turkey is 20%. This rate is applied on taxable income which is calculated by adjusting the income before tax for certain disallowable expenses, tax exempt income and other allowances. No further tax is applicable unless the profit is distributed. According to the tax code, each quarter advance tax amount is calculated using a rate of 20% over tax base and paid, then the paid advance taxes are deducted from the corporate tax liability that is calculated for the year.

Withholding taxes is not applied to dividends distributed to companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey. With the Council of Minister's decision numbered 2009/14593 and 2009/14594 which are published in official gazette numbered 27130 and dated 3 February 2009, some deduction rates in 15th and 30th articles of the corporate tax law numbered 5520 were re-determined. In accordance with this, dividends distributed to companies other than companies resident in Turkey or companies who earn income in Turkey through their resident representatives in Turkey are subject to 15% withholding taxes. Double tax treaty agreements are also taken into consideration during the application of withholding taxes on dividends distributed to real persons and to foreign based taxpayers. Addition of profit to share capital is not considered as dividend distributed therefore no withholding taxes is applied.

Each quarter advance tax amount is calculated using a rate of 20% over tax base and Corporate tax returns are filed by the fourteenth day of the second month following the balance sheet date and taxes is paid by the seventeenth day of the second until evening. Paid advance taxes are paid during the year are belong to the current year, then the paid advance taxes are deducted from the corporate tax liability that is calculated for the year. If the balance of paid advance taxes remains after deduction of paid advance taxes, it can be paid back in cash or it can be deducted from financial loans to the government.

Shares held for at least two years and 75% of real estate proceeds are exempt from tax to the extent that they are included in capital as required in Corporate Tax Law or they are held under a special account in liabilities for five years.

For the purpose of issuance of certificate of leasing immovables to resource institutions, with the sale of asset leasing companies, the scope of Financial Leasing, Factoring and Financing Companies Law No.6361, dated 21 November 2012 in order to lease it back and in case of taking back at the end of the contract, with the sale of financial leasing companies and asset leasing by asset leasing companies, for gains from the sale of the immovable property inherited from the institution applies this rate as 100% and for the immovable is not compulsory to be in assets at least for a period of two years. But the mentioned immovable's; except in case of failure to fulfill the obligations arising from the source institution, the lesser or leasing agreement, immovable in question by the asset leasing company, in case of selling a third person or institutions, these immovable's with the carrying value before its transfer to resource institution or asset leasing in lesser or asset leasing company, in mentioned institutions taking into consideration the total amount of depreciation is taxable for corporation engaged in the sale.

Corporate tax returns are filed by the twenty fifth day of the fourth month following the balance sheet date and taxes is paid in one installment by the end of that month.

Corporate tax losses can be carried forward for a maximum period of five years following the year in which the losses were incurred. However, losses cannot be carried back to offset profits from previous periods. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

In Turkey, there is no procedure for a final and definite agreement on tax assessments.

Deferred tax

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12"). Deferred tax asset is calculated on all temporary differences other than general provisions to the extent that is probable that taxable profit will be available and deferred tax liability is calculated for all temporary differences. Deferred tax asset and liabilities are shown in the accompanying financial statements on a net basis. If transactions and events are recorded directly in the shareholders' equity, the related tax effects are recognized directly in the shareholders' equity.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XVIII. Explanations on additional disclosures on borrowings

Borrowings other than funds collected are measured at amortized cost using the internal rate of return method after the initial recognition. The Bank does not apply hedging techniques on related borrowings.

There are no debt securities issued by the Bank.

The Bank has not issued convertible bonds.

Borrowing through the rent certificates (Sukuk)

In order to collect funds from various investors, the Bank issued a 5 year term rent certificate amounting to USD 350 million on 31 October 2011 with a profit share rate of 5.875%. The Bank has performed this issue through KT Sukuk Varlık Kiralama A.Ş. (Note V Part I-h), which is a subsidiary of the Bank that is established specifically for this transaction (the issuance of the rent certificates). Funds collected by KT Sukuk Varlık Kiralama A.Ş. from rent certificate investors, amounting to USD 350 million, is transferred to the Bank in exchange of some of the real estate assets, loan receivables and leasing receivables of the Bank. Within the scope of the aforementioned transaction, the Bank sold its real estate properties with a net book value of TL 61,195 to KT Sukuk Varlık Kiralama A.Ş. for a consideration equal to their market price of TL 248,734 (USD 136,870 thousand) and leased back these real estate assets for 5 years with a repurchase option at the end of the fifth year.

In accordance with the letter received from BRSA, numbered B.02.1.BDK.0.06.00.00-045.01(3/8)-5397 and dated 13 March 2012 this transaction is accounted for as “sale and lease back” transaction in accordance with TAS 17. As a consequence of this accounting treatment, the net book value of the real estate property transferred and leased back increased from TL 61,195 to TL 248,734. The difference of TL 187,539 between the net book value of TL 61,195 before the aforementioned transaction and the net book value of TL 248,734 after the aforementioned transaction will be recognized as income in 5 years using the effective interest method and accounted for as deferred income under other liabilities. As of 30 June 2016, TL 29,644 (30 June 2015 – TL 22,269) of the aforementioned deferred income is recognized as income in the income statement. The difference accounted as tangible assets mentioned above, will be recognized as expense by accounting under “other expenses” in the income statement during the period of lease.

As a result of the lease back of the real estate property, the total amount of semi-annual rental payments to be made to KT Sukuk Varlık Kiralama A.Ş. in 5 years and total amounting to USD 177,076 thousand is discounted with a profit share rate of 5.875% to the date of the transaction as USD 136,870 thousand and accounted for as financial lease payables.

The remaining part of the total funds of USD 350 million (full amount) transferred by KT Sukuk Varlık Kiralama A.Ş. to the Bank which is not part of the sale and leaseback transaction and amounting to USD 213,130 thousand is accounted for as Funds Borrowed in the balance sheet.

XIX. Explanations on share certificates issued

There is no significant amount of transaction costs on Bank about share certificates.

XX. Explanations on acceptances and availed drafts

Acceptances and availed drafts are realized simultaneously with the payment dates of the customers and they are presented as commitments in off-balance sheet accounts.

XXI. Explanations on government grants

There are no government grants received by the Bank.

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

XXII. Explanations on segment reporting

The Bank operates in three main segments; Corporate and Commercial Banking; Retail Banking; International Banking, Treasury and Investment Banking. Each segment operates with unique products, and the operational results are followed based on these segments.

Segment reporting is disclosed in Section Four, Note X.

XXIII. Explanations on other matters

There are no other matters to be disclosed by the Bank.

XXIV. Additional paragraph for convenience translation

The effects of differences between accounting principles and standards set out by regulations in conformity with article 37 of the Banking Act No. 5411, the accounting principles generally accepted in countries in which the accompanying financial statements are to be distributed and International Financial Reporting Standards (IFRS) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION FOUR

**INFORMATION RELATED TO FINANCIAL POSITION AND RISK MANAGEMENT OF
THE BANK**

I. Explanations on equity

Total capital and Capital adequacy ratio have been calculated in accordance with the “Regulation on Equity of Banks” and “Regulation on Measurement and Assessment of Capital Adequacy of Banks”. As of 30 June 2016 Bank’s total capital has been calculated as TL 5,242,198. Capital adequacy ratio is 17.01%.

As of 31 December 2015, Bank’s total capital amounted to TL 3,796,691, capital adequacy ratio was 14.23% calculated pursuant to former regulations. This ratio is well above the minimum ratio required by the legislation.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on currency risk

Foreign currency risk represents the Bank's exposure to loss due to the changes in foreign currency exchange rates. All foreign currency assets, liabilities and foreign currency forward transactions are considered in calculation of capital to be employed for foreign currency risk according to Standard Method.

The Bank monitors daily the designated limits set by the Board of Directors and additionally observes the possible value changes in foreign currency positions. The limits are determined and followed both for the net foreign currency position and for the cross exchange rate risk within the position. As a tool of foreign currency risk management, foreign currency forward transactions are used when necessary to mitigate the risk.

As of 30 June 2016, the Bank carries a net foreign currency long position of TL 113,119 (31 December 2015 – TL 52,807 long position) comprising TL 1,569,629 balance sheet long position (31 December 2015 - TL 952,092 long position) and TL 1,456,510 off balance sheet short position (31 December 2015 – TL 899,285 short position).

The announced current foreign exchange buying rates of the Bank as of 30 June 2016 and the previous five working days are as follows (full TL):

	23/06/2016	24/06/2016	27/06/2016	28/06/2016	29/06/2016	Balance sheet evaluation rate
USD	2.9055	2.8799	2.9266	2.9365	2.9130	2.8936
EURO	3.2776	3.2728	3.2444	3.2402	3.2262	3.2044
GBP	4.2564	4.2586	4.0186	3.9007	3.8766	3.8690
CHF	3.0211	3.0060	2.9937	3.0060	2.9691	2.9440
100 JPY	0.0277	0.0274	0.0285	0.0288	0.0284	0.0282

The simple arithmetic averages of the major current foreign exchange buying rates of the Bank for the thirty days preceding the balance sheet date are as follows (full TL):

	Monthly average FC purchase rate
USD	2.9153
EUR	3.2799
GBP	4.1676
CHF	2.9999
100 JPY	0.0275

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations on currency risk (continued):

Currency risk of the Bank: (continued)

Receivables/Payables related to derivative financial instruments include foreign currency purchase/sale transactions that are amounting to;

- Forward foreign currency purchase transactions TL 88,088 (31 December 2015 - TL 257,398)
- Forward foreign currency sale transactions: TL 102,250 (31 December 2015 - TL 223,967)
- Future precious metal purchase transactions: TL 578,612 (31 December 2015 - TL 340,409)
- Future precious metal sale transactions: TL 1,906,585 (31 December 2015 - TL 832,407)

III. Explanations on position risk of equity securities in banking book

a) Relation of risks with gains accounted under equity and analyzing according to their aims including strategic reasons and the accounting policies applied and general information about valuation techniques with assumptions in this application, the elements that manipulate valuation and important changes:

The Bank's non-quoted securities are accounted for fair value. When the fair value cannot be reliably measured, the cost method is used.

b) Carrying value of share investments, for fair value and quoted securities, comparison with market value if market value is significantly different from fair value:

Current Period		Comparison		
Equity Securities (shares)	Carrying Value	Fair Value	Market Value	
1 Securities Available-for-Sale (*)	100,733	-	-	-
Quoted Securities	-	-	-	-
2 Investments in Associates	-	-	-	-
Quoted Securities	-	-	-	-
3 Investment in Subsidiaries	300,062	-	-	-
Quoted Securities	50,173	-	-	-
4 Other	15,500	-	-	-
Quoted Securities	-	-	-	-
Prior Period		Comparison		
Equity Securities (shares)	Carrying Value	Fair Value	Market Value	
1 Securities Available-for-Sale (*)	64,815	-	-	-
Quoted Securities	-	-	-	-
2 Investments in Associates	-	-	-	-
Quoted Securities	-	-	-	-
3 Investment in Subsidiaries	299,312	-	-	-
Quoted Securities	50,173	-	-	-
4 Other	15,500	-	-	-
Quoted Securities	-	-	-	-

(*)Valuation of equity share investments are accounted at cost value due to its fair value cannot be measured reliably.

c) Realized gains/losses, revaluation surplus, unrealized gains/losses on equity securities and results included in core and supplementary capitals: None.

IV. Liquidity risk management and liquidity coverage ratio

The liquidity risk of the Bank is the risk of being unable to fulfill its payment obligations on time due to not having enough cash sources or cash inflows to finance its cash outflows fully and on time due to cash flow instabilities. It has been evaluated in two main categories :

Funding Liquidity Risk : It is a kind of risk which does not meet the any unexpected loss and non defaulting debts and liabilities.

Market Liquidity Risk : It is a kind of risk which consists of the position that cannot be sold without affecting market price due to insufficient market depth or market conditions' deterioration or that cannot be completed with the position of market price for any reasons.

a) Information on risk capacity of the Bank, Responsibilities and structure of liquidity risk management, the Bank's internal liquidity risk reporting, communication between the Board of Directors and business lines on liquidity risk strategy, policy and application:

The applications and responsibilities related to the liquidity risk has been determined according to the Treasury Liquidity and Market Management Policies and Practices approved by Board of Directors. The Bank's liquidity and funding policy is to own sufficient liquidity reserve and funding opportunities to meet its liabilities even in cases of stress, resulting from the market conditions or other conditions specific to the Bank.

The Bank, with its strong capital structure and its main shareholder is Kuwait Finance House's support, spread the base of current and participation accounts and be stable, diversified sources of foreign borrowing has a high risk capacity. In addition, the Liquidity Coverage Ratio of the Bank which meets its cash outflows with the high-quality liquid assets is evaluated as high.

Senior management in the ALCO meetings are analyzed indicators of the liquidity situation and liquidity risk are weekly discussed. In addition, the Board of Directors are informed through the Audit Committee.

For the management of liquidity risk, the Risk Management Department follows the funding and liquidity risks, market conditions, in the participating accounts, the distribution of different currencies, maturity, cost and expected future cash flow requirements (particularly with regard to large deposits). Reports on the liquidity gap analysis prepared weekly by Budget and Management Reporting and monitored by the Asset and Liability Committee. These units also estimate the possible liquidity needs of the Bank in case of urgent situations and generate action plans based on these estimates. Risk Management Department follows the limits on liquidity risk determined by the Board of Directors. Risk Management Department, in addition to these, is implementing monthly liquidity stress tests to measure the effects of negative scenarios on liquidity position of the Bank. The Treasury Group Management manages the liquidity risk and funding risk in order to prevent insufficiencies of funding relating to any time or any source and makes reports related with the liquidity position to Asset and Liability Committee regularly. External Reporting Directorate tracks the liquidity coverage ratio and the results are reported to the BRSA.

b) Information on the centralization degree of liquidity management and funding strategy and the functioning between the Bank and the Bank's subsidiaries:

The Bank's liquidity management is performed by the Asset and Liability Management. Depending on the Bank's consolidated subsidiaries are subject to liquidity risk is managed in-house, but the necessary communication and coordination within the Assistant General Manager in charge of Treasury and International Banking are provided.

c) Information on the Bank's funding strategy including the policies on funding types and variety of maturities:

Bank spread to the base of current and participation accounts and that a stable, long-term diversification and aims to be the source of the funds used. Ratio of liquid assets to total assets ratio and risk indicators related to liquidity, credit and the ratio of funds, issues such as the concentration in collected funds are being closely monitored.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

IV. Liquidity risk management and liquidity coverage ratio (continued)

ç) Information on liquidity management on the basis of currencies constituting a minimum of five percent of the Bank's total liabilities (continued):

Almost all total liabilities of the Bank consists of the Turkish Lira, American Dollar, Euro or Gold. TL liquidity of the Bank is managed through the open market transactions implemented by the Central Bank of the Turkish Republic and interbank operations. Liabilities in the form of TL are used in order to fund assets in the form of TL, assets in the form of TL are generated through foreign exchange based funds with swap operations if necessary. Foreign currency funds are provided with the foreign sourced credits in the form of foreign currency and sukuk-financial certificates issued. Liquidity in the form of foreign currency is kept at the interbank operations and accounts of the corresponding bonds within the limits. Liabilities in the form of Gold are kept at the required reserve accounts of the Central Bank of the Turkish substantially.

d) Information on liquidity risk mitigation techniques:

Liquidity risk is mitigated by using techniques such as maintaining high quality liquid asset buffer to cover possible fund outflows, diversification of funding sources so far as possible and inclusion to the base, homogenizing the maturity distribution of repayments as far as possible, obtaining limits from funding institutions to use when necessary and ensuring that a determined portion of funding sources are comprised of deposits. In addition, core deposit analysis is performed and concentration on collected funds are closely monitored.

e) Information on the use of stress tests:

In order to analyze the source of the possible liquidity insufficiencies and whether conformably move exists on existing off-balance sheet and balance sheet positions relevant with liquidity risk expectation, 3 types liquidity stress tests are applied by Risk Management Directorate. These includes stress test scenarios are special to the Bank, related with the overall market or scenarios take in consideration both of the situations. Stress tests related with liquidity risk are repeated at monthly periods. Results are tracked with key risk indicators and monitored by Senior Management.

f) General information on urgent and unexpected liquidity situation plans:

Necessary strategy and procedures for the management of possible liquidity crisis are determined with the Liquidity Contingency Plan, which is approved and reviewed every year by the Executive Risk Committee. The actions to be taken favor the benefits of depositors, creditors of the Bank and shareholders. Indicators of Liquidity Contingency Plan were determined, in case of unexpected progress at the liquidity situation occur or at situations trigger of other indicators, plan is put into use. After Liquidity Contingency Plan is put into use, Liquidity Contingency Management Committee is responsible from the determination of actions to be taken.

V. Explanations on leverage ratio

Disclosure of Leverage ratio template

The leverage ratio table prepared in accordance with the communiqué “Regulation on Measurement and Assessment of Leverage Ratios of Banks” published in the Official Gazette no. 28812 dated 5 November 2013 is presented below:

On-balance sheet assets		<i>Current Period (*)</i>	<i>Prior Period (*)</i>
1	On-balance sheet items (excluding derivative financial instruments and credit derivatives but including collateral)	43,714,323	42,388,827
2	(Assets deducted in determining Tier I capital)	(221,375)	(212,131)
3	Total on-balance sheet risks (sum of lines 1 and 2)	43,492,948	42,176,696
Derivative financial instruments and credit derivatives			
4	Replacement cost associated with all derivative instruments and credit derivatives	50,311	-
5	Add-on amounts for PFE associated with all derivative instruments and credit derivatives	97,476	99,214
6	Total risks of derivative financial instruments and credit derivatives (sum of lines 4 to 5)	147,787	99,214
Securities or commodity financing transactions (SCFT)			
7	Risks from SCFT assets (excluding on-balance sheet)	396,574	673,233
8	Risks from brokerage activities related exposures	-	-
9	Total risks related with securities or commodity financing transactions (sum of lines 7 to 8)	396,574	673,233
Other off-balance sheet transactions			
10	Gross notional amounts of off-balance sheet transactions	37,504,610	37,197,875
11	(Adjustments for conversion to credit equivalent amounts)	(21,646,188)	(22,663,134)
12	Total risks of off-balance sheet items (sum of lines 10 and 11)	15,858,422	14,534,741
Capital and total risks			
13	Tier I capital	3,406,551	3,189,730
14	Total risks (sum of lines 3, 6, 9 and 12)	59,895,732	57,483,884
Leverage ratio			
15	Leverage ratio	5.69	5.55

(*) Amounts in the table are three-month average amounts.

In the solo basis, the Bank's balance sheet date in the last months of the past three months, calculated on the basis of the arithmetic average of the nominal value in the leverage ratio was 5.69% (31 December 2015 - 5:55%) were realized. The main reason for the changes compared to the previous period compared to other off-balance sheet items is higher than the increase in risk item. According to this, while the core capital is not observed an increase in profit for the period increased by 7% and the balance-sheet risks borne amount, off balance sheet items showed a 9% increase. Accordingly, the leverage ratio of the current period compared to the previous year shows an increase of 14 basis points.

VI. Explanations on risk management

Risk Management System refers to the Board of Directors, the Audit Committee, the Risk Management Committee, Asset-Liability Committee (“ALCO”) and the Risk Management Department (“RMD”) which has been composed in order to manage systemic risks that the Bank is exposed. The Board of Directors is the owner of the Bank's Risk Management System and ensures the establishment of an effective, sufficient and appropriate risk management system as well as the continuity of the system. The main objective of the Bank's Risk Management System is to identify, measure, monitor and control the risks that the Bank is exposed to, by determining the policies, limits and procedures to control, to monitor, and if necessary to change the risk-return structure of the Bank's future cash flows and the level & the quality of related activities.

In accordance with Bank’s strategies, risk policies and vision, the analyses that Risk Management Service presents to Internal Systems Committee and Audit Committee are credit risks, market risks, liquidity risks, operational risks and IT risk evaluations. Besides, in accordance to market trends, economic conduct and Bank’s strategic growth, capital adequacy stress test and scenario analyses, evaluation of economic development in the World and Turkey are presented to Internal Systems Committee and Board of Directors by Risk Management Service. These analyses contribute to Bank Top Management’s resolution process about risk appetite and awareness of risks, capital adequacy, strategy revisions and future estimation.

In addition, Risk Management Service verifies its own coordination to be ready proactively in business availability of Kuveyt Türk and situations connected with it.

Risk Management Service continues risk monitoring and analyzing operations in accordance to Board of Director’s Kuveyt Türk’s mission, vision and growth strategy to prevent the potential risks. In this context credit and market risks, liquidity risk, operational risks and all limits, internal personal scoring and corporate rating modeling with IT risks issues, IT risk evaluation, operational lost data base, key risk indicators, operational risk insurances, market risk calculations, following up of treasury transactions and asset-liability risks are being monitorized.

IX. Explanations on business segments

The Bank operates in Corporate and Commercial Banking, Retail Banking, International Banking – Treasury and Investment Banking sectors.

Corporate and Commercial Banking: to meet the financial needs of the customers', unique cash flow and financial solutions are provided to customers through loans, non-cash loans, foreign trade financing services and similar customized products. Domestic and foreign business opportunities are supported by using different corporate banking instruments to serve the sustainability of the production of entities.

Retail Banking; there are four main activities: fund collection, consumer financing, credit cards and alternative distribution channels. The Bank serves in the range of products of profit share accounts creation, banking services, Trade Finance, Checks, POS services, Credit Cards, ATM services, Online Banking and Mobile Banking in these fields.

In International Banking, the relationships with foreign correspondent banks and investment institutes are executed directly or via branches abroad, representative offices and agencies. The firms, which are exceed size limits, are classified "corporate" customers and directed to the Corporate Banking. The products are the same with the Commercial Banking. The aim of international banking is to enable foreign trade financing and develop mutual long term financing agreements with foreign banks. Besides supplying syndicated loans and issue the Sukuk for the Bank, investment banking also supplies syndicated loans in corporate basis for the firms and groups in Turkey. The Treasury in addition to monitoring foreign currency position and liquidity of the Bank, also conducts spot and forward transactions in TL or foreign currencies, performs derivative transactions (Forward, Swap) with banks and customers, trades of gold within the context of membership of Istanbul Gold Exchange, trades share certificates in BIST and international markets and conducts Murabaha transactions with foreign banks.

The Bank holds collaterals like mortgage pledge, customer cheques and other collaterals against these financial assets.

KUVEYT TÜRK KATILIM BANKASI ANONİM ŞİRKETİ
NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

I. Explanations and notes related to assets: (continued)

e. Information on loans and receivables: (continued)

10. Main guidelines for liquidation process of uncollectible loans and other receivables:

Loans and other receivables, which were deemed uncollectible according to the “Principles and Procedures for the Determination of the Quality of Loans and Other Receivables and Reserves to be provided for these Loans” published in the Official Gazette No. 26333 dated 1 November 2006 and for which a full impairment provision has been made, are written-off per the decision of the Bank top management. In 2016, non-performing loans amounting to TL 51,154 have been written-off. (31 December 2015 – TL 333,185).

11. Information on the write-off policy:

The Bank ‘s write-off policy is to write-off the loan receivables that have been already transferred to legal follow-up and fully provided for and for which there is no possibility of collection through legal process and for which there is no collateral. Such loans are written off as per the decision of top management.

f. Information on held-to-maturity investments:

None (31 December 2015 – None).

g. Information on investment in associates (Net):

1. The 1.69% ownership of Kredi Garanti Fonu A.Ş. of TL 4,719 (31 December 2015 – TL 4,210), 8.36% ownership of Islamic International Rating Agency of TL 714 (31 December 2015 – TL 714), and 6.99% ownership of Neova Sigorta A.Ş. of TL 5,201 (31 December 2015 – TL 4,956), TL 390 amount of swift shares (31 December 2015 – TL 390) and 0.0035% ownership of share of TL 15 (31 December 2015 – TL 15) that is traded in Borsa İstanbul A.Ş. and VISA Inc. share of TL 5,476 (31 December 2015 – TL 0) are classified as financial assets available for sale since the Bank’s ownership in these institutions is less than 10% and the Parent Bank does not have a significant influence on these institutions.

2. Information about investments in unconsolidated associates: None (31 December 2015 – None).

3. Information related to consolidated associates: None (31 December 2015 – None).

h. Information on subsidiaries (Net):

1. Although the Bank has control power over the management and capital of its non-financial subsidiaries, Körfez Tatil Beldesi Turistik Tesisler ve Devremülk İşletmeciliği San. Ve Tic. A.Ş. does not confirm to the definition of financial subsidiary in accordance with “Regulation related to the Preparation of Consolidated Financial Statements by Banks” published in the Official Gazette No. 26340 dated 8 November 2006; hence this subsidiary has not been consolidated. The Bank has reflected its subsidiary at restated cost less any provision for impairment in its financial statements until 31 December 2004.

NOTES AND DISCLOSURES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations and notes related to liabilities (continued)

c. Information on funds borrowed: (continued)

3. Explanations Related to the Concentrations of the Bank's Major Liabilities:

Majority of the borrowings consist of foreign currency loans. There is no risk concentration of the Bank's current and profit sharing accounts.

d. Information on other liabilities and miscellaneous payables:

As of 30 June 2016, other liabilities amount to TL 961,549 (31 December 2015 – TL 454,608), sundry creditors amount to TL 161,025 (31 December 2015- TL 118,978), both of them do not exceed 10% of the balance sheet total.

e. Information on finance lease payables (net):

The Bank bought some of the information technology equipment through financial lease and the liabilities originated from the agreements are paid in monthly installments to the leasing firms. These agreements do not raise any further liabilities other than already committed payments by the Bank.

As of 30 June 2016, finance lease payables details of the transaction of issuing certificate of rent (Sukuk) is explained under section three and disclosure XVIII, with the permission of BRSA's decision numbered B.02.1.BDK.0.06.00.00-045.01(3/8)-5397 and as of 13 March 2012, it is accounted as sale and leaseback transaction in accordance with TAS 17.

- i. Information on the changes in agreements and new obligations originating from these changes: None (31 December 2015 – None).
 ii. Information on Financial Lease Obligations

	Current period		Prior period	
	Gross	Net	Gross	Net
Less than 1 year	465,884	399,828	468,302	401,990
Between 1-4 years	-	-	-	-
More than 4 years	-	-	-	-
Total	465,884	399,828	468,302	401,990

iii. Information on Operational Leases:

The leasing transactions, in which all risks and benefits of the leased asset are held by the lessor, are classified as operational leases. Such transactions consist of rent contracts of branches which may be cancelled by declaration.

There are no significant commitments regarding the changes at the operational lease agreements.

The payments related with operational leases are recognized as expense in the income statement during the period of the agreement in equal installments.

iv. Information on sale and leaseback transactions:

The transaction of issuing certificate of rent (sukuk) is explained under section three and disclosure XVIII, with the permission of BRSA's decision numbered B.02.1.BDK.0.06.00.00-045.01(3/8)-5397 and dated as 13 March 2012, it is accounted as sale and leaseback transaction in accordance with TAS 17.

FOR THE PERIOD ENDED 30 JUNE 2016

(Amounts expressed in thousands of Turkish Lira (TL) unless otherwise stated.)

II. Explanations and notes related to liabilities (continued)

4. Information on provisions for employee benefits:

Provisions for employee benefits consist of reserve for employee termination benefits amounting to TL 54,923 (31 December 2015 – TL 48,208), vacation pay liability amounting to TL 10,404 (31 December 2015 – TL 355), performance premium amounting to TL 18,988 (31 December 2015 – TL 49,677), retirement bonuses on payment of TL 6,893 (31 December 2015 – TL 3,360), and committee fee amounting to TL 4,604 (31 December 2015- TL 4,840).

Under the Turkish Labor Law, the Bank is required to pay termination benefits to each employee who has completed at least one year of service and whose employment is terminated without due cause, is called up for military service, dies or retires or earns the right to retire.

The amount payable consists of one month's salary limited to a maximum of TL 4,093 (full amount) (31 December 2015 – TL 4,093) for each year of service. The liability is not funded, as there is no funding requirement.

The reserve has been calculated by estimating the present value of the future probable obligation of the Bank arising from the retirement of its employees. TAS 19 requires actuarial valuation methods to be developed to estimate the enterprise's obligation for such benefits. Accordingly, the following actuarial assumptions were used in the calculation of the total liability.

	Current period	Prior period
Discount rate (%)	9.80	10.83
Inflation rate (%)	6.70	7.40
Interest rate (%)	9.80	8.40

Movements in the reserve for employment termination benefits during period are as follows:

	Current period	Prior period
Balance at the beginning of the period	48,208	41,916
Provisions recognized during the period	10,114	13,063
Paid during the period	(3,399)	(3,151)
Actuarial gain/loss	-	(3,620)
Balances at the end of the period	54,923	48,208

h. Explanations on tax liability:

1. Explanations on current tax liability:

i. Information on tax provisions: As of 30 June 2016, the Bank has current tax liability after deducting temporary taxes paid during the period from the provision for corporate income tax amounting to TL 26,612.

	Current period	Prior period
Provision for corporate income tax(*)	42,842	159,529
Prepaid taxes	(16,230)	(123,057)
Total (**)	26,612	36,472
